INTELLECTUAL PROPERTY ASSIGNMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment") is made and entered into as of December 5, 2017 (the "Effective Date") by Ductilcrete Technologies, LLC, a Florida limited liability company ("Assignor"), and GCP Applied Technologies Inc. ("Assignee").

WHEREAS, Assignor is a direct wholly owned subsidiary of Assignee and the record owner of the registered patents, patent applications, trademarks, trademark registrations and domain names (the "Transferred IP") set forth on Exhibit A attached hereto;

WHEREAS, Assignor wishes to assign and Assignee wishes to acquire Assignor's Transferred IP; and

WHEREAS, Assignee desires to grant, and Assignor desires to accept, a license to use the Transferred IP to conduct its business, on the terms and conditions set forth herein.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee hereby acknowledge and agree as follows.

1. Assignor does hereby sell, transfer, convey and assign unto Assignee, any and all of Assignor's right, title, and interest in, to, and under the following for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives: (i) the Transferred IP; (ii) all common law or unregistered rights in the Transferred IP; (iii) all goodwill associated with the foregoing; (iv) all rights to sue and recover damages or obtain other relief for past, present and future infringements of the foregoing; and (v) all other corresponding rights that are or may be secured under the laws of any country or other jurisdiction, now or hereafter in effect (collectively, the "Transferred Rights").

2. Assignor hereby authorizes the U.S. Patent and Trademark Office and any other entity or agency in any applicable countries or other jurisdictions whose duty it is to receive or register patents, trademarks, domain names or other intellectual property rights, or applications therefor, to record Assignee as the owner of the Transferred Rights and to issue all registrations for said Assignor's Transferred Rights in the name of Assignee.

3. Assignee hereby grants to Assignor a royalty-free, fully paid, worldwide, non-exclusive, limited license to use the Transferred Rights in connection with its business. The foregoing license shall be non-transferrable and non-sub licensable; provided, however that notwithstanding the foregoing Assignor shall have the right to sublicense its rights pursuant hereto to DC Designs, LLC ("DC Designs") in connection with the conduct of the business of DC Designs. Any and all developments or derivative works created by Assignor or its licensee pursuant to the license granted hereunder shall be owned by Assignee. The term of the license granted pursuant to this Section 3 shall terminate with no further force or effect on December 31, 2018, or on any earlier date on which either Assignor or DC Designs are no longer 100% owned by Assignee.

IN WITNESS WHEREOF, Assignor and Assignee have caused this Assignment to be executed as of the Effective Date.
