Assignor hereby irrevocably sells, assigns, transfers, conveys and delivers to Assignee, and Assignee hereby accepts from Assignor, all of Assignor's right, title and interest in, to and under the Patents, including, without limitation, (i) any United States, international and foreign counterparts or equivalents of any of the foregoing, applications or certificates of invention based upon or covering any portion of any of the foregoing, (ii) any reissues, divisionals, renewals, extensions, provisionals, continuations, continuations-in-part, reexaminations, substitutions or revisions of any of the foregoing, (iii) any other patents, applications or extensions that claim priority to or through any of the foregoing; (iv) any inventions disclosed in any of the foregoing; (v) choses in action and rights to sue, recover and collect for any past, present or future infringements of the Patents; and (vi) corresponding rights that, now or hereafter, may be secured throughout the world with respect to the Patents.

2. Assignor grants the attorney of record the power to insert on this Assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office, or rules of other entities including but not limited to United States or foreign governments or patent offices, for recordation of this document. Assignee shall have the right to file or record this Assignment and any additional assignment documents with the United States Patent and Trademark Office and any other equivalent authority, entity or agency anywhere else in the world, and Assignor hereby authorizes and request the Commissioner of Patents and Trademarks and any such equivalent authorities, entities or agencies to record Assignee as the owner of the Patents.

3. Assignor shall execute such other or additional instruments of transfer or conveyance and undertake such other or additional actions in respect of the Patents as are reasonably requested by the Assignee, including any applicable forms of assignment necessary for filing before the U.S. Patent and Trademark Office, or equivalent filings in foreign jurisdictions, to effectuate the full and complete transfer of the Patents to the Assignee.
