ASSIGNMENT

I, Gernot Hirse, residing at Am Forsthaus Gravenbruch 24 A, 63263 Neu-Isenburg, Germany, have invented certain new and useful improvements (“Invention”) that are disclosed and/or claimed in the following patent application (“Application”):

International Patent Application entitled WRENCH IN THE FORM OF AN OPEN-END WRENCH FOR RATCHETING INCREMENTS OF 30°, Application No. PCT/EP2016/061772, filed 25-May-2016.

Hirse-Patent-Lizenz-GmbH, having a place of business at Am Forsthaus Gravenbruch 24 A, 63263 Neu-Isenburg, Germany, on behalf of itself and its successors and assigns (“Assignee”) is entitled to and is desirous of acquiring the entire and exclusive rights, title and interest in and to the Invention, the Application, and all other applications and patents derived therefrom in and for the United States.

For good and valuable consideration, the receipt and sufficiency whereof are hereby acknowledged, I have sold, assigned, and transferred and by this present instrument, hereby sell, assign and transfer unto the Assignee, the full and exclusive rights, title and interest, including the right to claim priority, in and to the Invention, the Application, and any and all divisions or continuations thereof, and in and to any and all Letters Patents of the United States which may issue on any such application or for the Invention, including any and all reissues or extensions thereof.

I hereby authorize and request the Patent Office Officials in the United States to issue any and all of said Letters Patent, when granted, to the Assignee as the assignee of my entire right, title and interest in and to the same, for the sole use and benefit of the Assignee to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held by me had this Assignment and sale not been made.

Date: 12.20.17

(SIGNATURE OF INVENTOR)
Gernot Hirse
