**ASSIGNMENT**

This document is an amendment to the previously executed assignment, in which the Assignor and Assignee intend to correct the name used for the Assignee in the previously executed assignment dated April 16, 2014.

The Assignor is an inventor of inventions described in the United States Patent Application (the "Patent Application"):

Title: Certificate Authority Server Protection  
Patent No.: 13/928,400

**SAIFE, Inc., an Arizona Corporation** ("Assignee") desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of his right, title, and interest in the inventions and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of the Patent Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further represents to the Assignee, its successors and assigns, that he has not and shall not execute any writing or do any act whatsoever conflicting with this Assignment.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.

In witness whereof, the Assignor hereunto has executed this Assignment:
