ASSIGNMENT

WHEREAS, Bould Design, a California LLC, having its principal place of business at 1135 North Amphlett Blvd, San Mateo, CA 94401 (the "Assignor") is the owner by assignment the right, title, and interest in and to the following original and ornamental designs entitled AUTOMATION GATEWAY, bearing serial number 29/593,097, filed on February 6, 2017 and WIRELESS REPEATER, bearing serial number 29/593,099, filed on February 6, 2017 (the "Invention") wherewith in the U.S. Patent and Trademark Office ("USPTO");

WHEREAS, Assignor desires to assign any and all right, title and interest to the Invention; any patents, patent applications, utility models, utility model applications, design registrations, design applications, or other intellectual property rights based upon or arising from the Invention, including, but not limited to, any original, provisional, non-provisional, continuation, continuation-in-part, divisional, international, foreign, regional, and convention applications, registrations, or patents; any reissue or reexamination thereof or to be obtained therefor; any renewals, or substitutes thereof; any and all priority rights or priority claims and International Convention rights for any of the foregoing; any and all rights to collect damages, including past damages, for infringement of any and all of the foregoing; and other benefits accruing to or to accrue to Assignor with respect to the filing of applications for patents or design registrations or the securing of patents, design registrations, or other intellectual property rights in any country or region in the world (the "Intellectual Property Rights"); and

WHEREAS, Hunter Douglas Inc., a Delaware corporation, having its principal place of business at 1 Blue Hill Plaza, Pearl River, NY 10965 (the "Assignee"), desires to acquire any and all right, title, and interest of Assignor in and to the Invention and the Intellectual Property Rights;

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold, assigned, and transferred and by these presents does hereby sell, assign and transfer to Assignee, and Assignee's legal representatives, successors and assigns, any and all of the entire right, title and interest in and to the Invention and the Intellectual Property Rights;

UPON SAID CONSIDERATION, Assignor hereby covenants and agrees with Assignee that it will not execute any writing or do any act whatsoever conflicting with these presents, and that it will, at any time upon request, without further or additional consideration, but at the expense of Assignee, execute such additional assignments and other writings and do such additional acts as Assignee may deem necessary or desirable to perfect Assignee's enjoyment of this grant, and render all necessary assistance in making applications for and obtaining the Invention and the Intellectual Property Rights, and execute confirmatory assignments or acknowledgments of this assignment as necessary for full enjoyment of the Invention and the Intellectual Property Rights and for recording in foreign patent offices, and in enforcing any rights or choses in action accruing as a result of the Invention and the Intellectual Property Rights, by giving testimony in any proceedings or transactions involving the Invention and the Intellectual Property Rights, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of, the assigns and legal representatives of both parties;

UPON SAID CONSIDERATION, Assignor represents and warrants that Assignor has the right, title, and authority to execute this Assignment and to convey any and all right, title, and interest in the Invention and the Intellectual Property Rights, and that Assignor has not

conveyed nor will convey hereafter all or part of the Invention and the Intellectual Property Rights to a third party; and

ASSIGNOR HEREBY AUTHORIZES Assignee, its successors, and assigns, or anyone it may properly designate, to apply for patents, design registrations, and other intellectual property rights associated with the Invention and the Intellectual Property Rights in any country or region in the world, in its own name if desired, and additionally to claim priority to the filing date of the original application or registration and otherwise take advantage of the provisions of any international conventions.

This Assignment may be executed in two or more counterparts and by facsimile, all of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
