Assignment

WHEREAS, I, the undersigned inventor living at the address listed below, have invented certain new and useful inventions and improvements ("the Invention") for which a United States Patent Application is made, entitled:

DC Electric Motor/Generator with Enhanced Permanent Magnet Flux Densities

having a U.S. application number 14/490,656, and a filing date of September 18, 2014 ("the Application), and

WHEREAS, Linear Labs, Inc., a Texas corporation, having an address of 5603 Weatherford Highway, Granbury, Texas 76049, together with its successors and assigns (hereinafter called "ASSIGNEE") desires to acquire the title, rights, benefits, and privileges recited below.

NOW, THEREFORE, for and in good and valuable consideration, the receipt and sufficiency of which I hereby acknowledged without reservation, I hereby:

1. Assign, transfer, and convey to ASSIGNEE the entire right, title, and interest in and to the Invention, the Application, every and all applications and patents which may be granted or derived from the Invention or Application, in any country throughout the world, including all divisional, renewal, substitute, continuation, continuation-in-part, utility model, industrial designs, designs, convention and treaty applications based in whole, or in part, upon the Invention, the Application and any and all patents, reissues, and extensions of all patents granted for the Invention or the Application, and every priority right that is or may be predicated upon, or arise from, the Invention, the above applications, and the above patents (including any and all claims, of any nature whatsoever, for past, present or future infringement or violation of the above patents);
2. Authorize ASSIGNEE to file patent applications in any or all countries on any or all parts of the Invention in my name or in the name of ASSIGNEE or otherwise as ASSIGNEE may deem advisable, under International Conventions or otherwise;
3. Authorize and request the Commissioner of Patents and Trademarks of the United States of America and the empowered officials of all other governments throughout the world to issue or transfer all such above patents to ASSIGNEE, as assignee of the entire right, title, and interest therein or otherwise as ASSIGNEE may direct;
4. Warrant that I have not knowingly conveyed to others any right in the Invention, applications, or patents, or any license to use the same, or to make, use, or sell anything embodying or utilizing any of the Invention; and that I have good right to assign the same to ASSIGNEE without encumbrance;
5. Bind my heirs, legal representatives, and assigns, as well as myself, to do, upon ASSIGNEE's request and at ASSIGNEE's expense, but without additional consideration to myself or them, all acts reasonably serving to assure that the Invention, the above patent applications, and the above patents shall be held and enjoyed by ASSIGNEE as fully and entirely as the same could have been held and enjoyed by us, our heirs, legal

Assignment

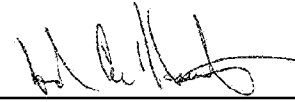

representatives, and assigns if this Assignment had not been made. In particular, to execute and deliver to ASSIGNEE all lawful application documents including petitions, affidavits, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by ASSIGNEE.

6. Communicate to ASSIGNEE all facts known to me relating to the Invention or the history thereof, and to testify as to the same in any court or proceeding; and to furnish ASSIGNEE any and all documents, photographs, models, samples, and other physical exhibits in my control or in the control of our heirs, legal representatives, or assigns which may be useful for establishing the facts of our conceptions, disclosures, and reduction to practice of the Invention.

I also authorize and request that the attorneys and agents of the Law Office of Bill Naifeh of Dallas, Texas insert the application number and date of filing in the spaces provided above, when the application number date of filing is known.
