Patent Assignment Agreement

Edwin F. Sithes ("Assignor") and Avani Environmental Intl, Inc., a North Carolina corporation ("Assignee"), enter into this Patent Assignment Agreement ("Agreement") as of June 26, 2017 ("Effective Date").

Background. Assignor desires to assign to Assignee, and Assignee desires to acquire, all right, title, and interest that Assignor may have in and to certain patents.

The parties agree as follows:

1. **Assignment.** For good and valuable consideration, the receipt and sufficiency of which Assignor acknowledges by its execution below, Assignor hereby irrevocably conveys, transfers, and assigns to Assignee, and Assignee hereby accepts, all of Assignor's right, title, and interest in and to the following (the "Assigned Patents"):
 - a. the patents set forth in Schedule I hereto and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations, and renewals thereof, the inventions covered thereby, and all priority rights resulting therefrom;
 - b. all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;
 - c. any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and
 - d. any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present, and future infringement, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.
2. **Recordation and Further Actions.** Assignor authorizes the Commissioner for Patents and any other governmental officials to record and register this Agreement upon request by Assignee. Assignor shall take such steps and actions following the date hereof, including the execution of any documents, files, registrations, or other similar items, to ensure that the Assigned Patents are properly assigned to Assignee, or any assignee or successor thereto.
3. **Counterparts.** This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Agreement delivered by facsimile, e-mail, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Agreement.
4. **Successors and Assigns.** This Agreement shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.
5. **Governing Law.** This Agreement and any claim, controversy, dispute, or cause of action (whether in contract, tort or otherwise) based upon, arising out of or relating to this Agreement and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the United States and the State of North Carolina, without giving effect to any choice or conflict of law provision or rule (whether of the State of North Carolina or any other jurisdiction).
