("Assignors") confirm our obligation to and hereby irrevocably transfer, assign and convey unto  
Assignee, and its successors and assigns, our entire worldwide right, title, and interest, free and  
clear of all liens, encumbrances or other obligations:

(1) in and to the inventions and subject matter described, depicted, claimed, or  
otherwise disclosed ("the Inventions") in the patent application titled "REDUCING  
CALIBRATION OF COMPONENTS IN AN IMAGING PLATE SCANNER," for which United  
States Patent Application No. 15/885,599, filed on January 31, 2018 (Atty.  
File No. 029414-9011-US01) (hereinafter "the U.S. application");

(2) in and to the U.S. application and all other patent applications now or hereafter filed  
in the United States of America (including, without limitation, any non-provisional, divisional,  
continuation, continuation-in-part, reexamination, and reissue applications) based upon the  
Inventions or claiming the benefit of or priority to the U.S. application or any other patent  
application assigned under this Assignment, including all rights of priority based on such  
applications and the right to file such applications in the name of the Assignee, and any and all

patents granted thereon to the full end of the term or terms for which said patents may be granted;

(3) in and to all patent applications or other applications of any kind or nature relating to the protection of intellectual and industrial property rights, now or hereafter filed in countries foreign to the United States of America, based upon the inventions or claiming the benefit of or priority to the U.S. application or any other patent application assigned under this Assignment, including all rights of priority based on such applications and the right to file such applications in the name of the Assignee, and any and all patents granted thereon to the full end of the terms for which said patents may be granted;

(4) in and to all patent applications or other applications of any kind or nature relating to the protection of intellectual and industrial property rights now or hereafter filed under the Paris Convention for the Protection Of Industrial Property, the Patent Cooperation Treaty, and all other international conventions, agreements, treaties or laws relating to the protection of intellectual and industrial property based upon the inventions or claiming the benefit of or priority to the U.S. application or any other patent application assigned under this Assignment, including all rights of priority based on such applications and the right to file such applications in the name of the Assignee, and any and all patents granted thereon to the full end of the terms for which said patents may be granted;

(5) in and to all rights of any kind whatsoever of Assignors accruing before, on, or after the dates of execution below under any of the foregoing provisions provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world, acknowledging that some rights may have already accrued to the Assignee under such applicable laws; and

(6) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on, or after the dates of execution below, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

Assignors hereby agrees that Assignors will, upon demand of Assignee, its successors, assigns, or legal representatives, and without further consideration to Assignors, execute any and all papers and do all other lawful acts that may be deemed necessary by Assignee, its successors, assigns, or legal representatives, to complete fulfillment of the intent and purposes of this Assignment in any country throughout the world. Any expenses incident to the execution

of such papers and performance of such acts shall be paid by the Assignee, its successors, assigns, or legal representatives.

Assignors hereby authorizes and requests the Commissioner of the United States Patent and Trademark Office and the appropriate official of any foreign patent or intellectual property office to issue all patents as shall be granted upon the assigned patent applications to Assignee, its successors, assigns, or legal representatives.
