For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, Mark Zhang of Lynnwood, Washington, do hereby assign, sell and transfer to Manta Sleep, LLC, a company organized and existing under the laws of the State of Wyoming and having a mailing address at 690 S. Highway 89, Suite 200, Box 7403, Jackson, Wyoming, 83002, and to its successors, assigns or other legal representatives, hereinafter referred to as ASSIGNEE, my entire right, title and interest, domestic and foreign, in and to: the inventions and discoveries in U.S. Design Patent Application No. 29/600,268 entitled “Sleep Mask” (Attorney Docket No. ZSA-001-D, hereafter “present application”), filing date April 11, 2017; the present application, and any subsequent patent applications based on or deriving priority therefrom including utility patent applications, continuations, continuations-in-part, divisions, renewals, substitutes or extensions thereof; any Patents to be obtained for said inventions and discoveries by the present application or by such subsequent patent applications, including reissued and re-examined Patents; and, the right to make applications and receive Patents (and their equivalents) for said inventions and discoveries in any country (including the U.S.) in its own name, or in my name, at its election.

I hereby also assign, sell and transfer to ASSIGNEE all rights of priority in and to said inventions and discoveries in any country and all rights to revenues associated with commercialization of said inventions and discoveries in any country during the pendency of the present application and of such subsequent patent applications, and during the term of any Patent(s) resulting from the present application and such subsequent patent applications. This includes the right to sue third parties for patent infringement, including damages accruing from activities occurring before and after the execution date hereof.

I hereby agree for myself, and for my heirs, successors, assigns or other legal representatives, to execute any papers, including applications for Patents of any kind in any country, and to perform any acts which said ASSIGNEE may reasonably deem necessary to secure thereto the rights herein assigned, sold and transferred, with any expenses associated therewith after the execution date hereof to be borne by ASSIGNEE. ASSIGNEE shall be solely responsible for the payment of any maintenance or annuity fees associated with the present application and with such subsequent patent applications and any patents resulting therefrom.

I hereby represent and warrant that I have not granted or retained (and will not in the future grant) any rights inconsistent with the rights granted herein. And I authorize ASSIGNEE either directly or by and through its attorneys to receive all correspondence from the U.S. Patent and Trademark Office associated therewith.
