**ASSIGNMENT OF UNITED STATES DESIGN PATENT APPLICATION**

WHEREAS, Kevin L. Corcoran of Mission Viejo, California, and Jennifer Long of Lake Forest, California (hereinafter referred to as the "INVENTORS"), have created a new and ornamental design (hereinafter referred to as "DESIGN") which has been covered by a design patent application filed in the U. S. Patent and Trademark Office, the identity of which is listed below:

Patent Application No. 29/610,575  
filed July 13, 2017 and entitled  
"HAND-TOOL,"

WHEREAS, the INVENTORS now wish to assign their patent application to Ellison Educational Equipment, Inc. (hereinafter "ELLISON"), a California corporation having its principal place of business located at 25862 Commercentre Drive, Lake Forest, California 92630.

NOW, THEREFORE, for valuable consideration, the receipt and sufficiency of which are hereby acknowledged, said INVENTORS have sold, assigned, and transferred and by these presents do sell, assign, and transfer unto ELLISON and to its successors, legal representatives and assigns, the INVENTORS' entire right, title and interest in and to said DESIGN as well as to the patent application therefor for the territory of the United States of America and all foreign countries, said DESIGN and application to be held and enjoyed by ELLISON for its own use and enjoyment and for the use and enjoyment of its successors, legal representatives and assigns to the full end of the term for which the Letters Patent on same will be granted, as fully and entirely as the same would have been held by the INVENTORS had this Assignment and sale not been made.

Said INVENTORS hereby covenant that they have the full right to convey the entire interest herein assigned, and that they have not executed, and will not execute, any agreement in conflict herewith.

Said INVENTORS further covenant and agree that they will communicate to ELLISON and to its successors, legal representatives and assigns, any facts known to them respecting said DESIGN and, at no expense to themselves, testify in any legal proceeding, sign all applications, make all rightful oaths, and do everything reasonable to aid ELLISON and its successors, legal representatives and assigns to obtain and enforce proper patent protection for said DESIGN.

Said INVENTORS acknowledge that this Agreement does not apply to any invention which qualifies fully under the provisions of Section 2870 of the California Labor Code, which states that:

Any provision in an employment agreement which provides that an employee shall assign, or offer to assign, any of his or her rights in an invention to his or her employer shall not apply to an invention that the employee developed entirely on his or her own time without using the employer's equipment, supplies, facilities, or trade secret information except for those inventions that either:

1. Relate at the time of conception or reduction to practice of the invention to the employer's business, or actual or demonstrably anticipated research or development of the employer.
2. Result from any work performed by the employee for the employer.

IN TESTIMONY WHEREOF, the INVENTORS hereby consent to and execute this Assignment  
below.
