NOW, THEREFORE, pursuant to the contracts specified above, Assignors acknowledge they have previously sold, assigned, transferred and set over to Assignee all rights, title and interests in, to and under said invention(s) and said application(s), including the right to apply for any Letters Patent of the United States of America and in any and all foreign countries on said invention(s), and any and all other applications for Letters Patent on said invention(s), in whatsoever countries, including all divisional, renewal, substitute, continuation, continuation-in-part and convention applications based in whole or in part upon said invention(s) or upon said application, and any and all utility patents and models, reexaminations, and design registrations granted for said invention(s) in whole or in part or upon said applications, and any and all Letters Patent which may issue thereon in the United States and foreign countries, and any and all reissues, extensions, renewals, divisions, reexaminations, continuations or continuations-in-part of Letters Patent granted for said invention(s) or upon said applications, to the full term or terms for which said Letters Patent may be issued, and every priority right that is or may be predicated upon or arise from said invention(s), said application and said Letters Patent, the same to be held and enjoyed by the Assignee for its own use and benefit fully and entirely as if the same would have been held and enjoyed by Assignors had this Assignment not been made. Assignors acknowledge they have previously authorized the Assignee to file patent applications in any and all countries on any or all of said invention(s) in Assignors' names, or in Assignee's name, or otherwise as the Assignee may deem advisable, under the Patent Cooperation Treaty, the European Patent Convention, the Paris Convention and all other treaties of like purposes. Assignors also acknowledge

they have assigned to Assignee any claims (known or unknown, suspected or unsuspected) of any nature that Assignee has or may have against any party for infringement of any of the patents or patent applications listed herein, and the right to sue for past infringement and to recover and retain damages and profits in respect thereof.

Assignors hereby authorize the Director of Patents and Trademarks of the United States, and any official of any other country empowered to issue patents, to record this Assignment, and to issue or transfer all said Letters Patent on said invention(s) to the Assignee as owner of all right, title and interest therein, or otherwise as the Assignee may direct, in accordance with the terms of this Assignment.

Assignors hereby represent and warrant that Assignors had the full right to convey the entire right, title and interest assigned by the prior contracts, that there are no rights or interests outstanding inconsistent with the rights and interests granted herein, and that Assignors have not executed and will not execute any instrument or grant or transfer any rights or interests inconsistent with the rights and interests granted herein.

Assignors hereby covenant and agree that Assignors will, upon request of the Assignee, communicate to the Assignee any facts known to Assignors relating to said invention(s) and the history thereof, testify in any legal proceeding, execute all lawful papers, including without limitation divisional, renewal, substitute, continuation, reissue, continuation-in-part and convention applications and all rightful oaths and declarations, and generally do all further acts which may be deemed necessary by the Assignee to obtain and enforce proper patent protection for said invention(s) in all countries.

IN TESTIMONY WHEREOF, Assignors have executed this document and made the following declarations on the date(s) indicated below:

In addition to confirming the previously agreed upon conditions noted herein, I, Paul Gordon Roessler hereby declare that the above identified application was made or authorized to be made by me. I believe that I am the original inventor or an original joint inventor of a claimed invention in the above identified application. I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.
