WHEREAS, Veeco Instruments, Inc. (and hereinafter called the "ASSIGNEE", which term shall include its successors and assigns), a corporation organized and existing under the laws of the State of Delaware, and having a usual place of business at Terminal Drive, Plainview, NY 11803 desires to acquire an interest therein, in accordance with agreements duly entered into with us;

NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of said agreements and of other good and valuable consideration, the receipt of which is hereby acknowledged, we have sold, assigned and transferred and by these presents do hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns, and legal representatives, our entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to the inventions (which term shall include each and every such invention, or part thereof) described in said application, together with our entire right, title and interest in and to said application and such Letters Patent as may issue thereon or claim priority under international convention, and any and all like rights of exclusion (including extensions thereof) of any country which may be granted on or for said inventions or on said application, including but not limited to continuations, divisionals, reissues, and reexaminations of said application of such Letters Patent; said inventions, applications and Letters Patent to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held by us had this assignment and sale not been made; we hereby convey all of our rights arising under or pursuant to any and all international agreements, treaties or laws, including but not limited to the International Convention for the Protection of Industrial Property and the

We do hereby authorize said ASSIGNEE to apply in our name or in their own name (in a manner to be agreed upon by said ASSIGNEE) or their designee, for patents and like rights of exclusion on or for said inventions in all countries, claiming (if said ASSIGNEE so desires) the priority of the filing date of said application under the provisions of said Convention, Treaty or any such other Convention or Treaty. AND, we hereby further agree for ourselves and our respective heirs, executors and administrators, upon request of said ASSIGNEE, to execute and deliver without further compensation any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid invention to said ASSIGNEE, its successors, assigns, and legal representatives, but at its or their expense and charges, including: execution of powers of attorney, execution of assignments, the execution of applications for patents in foreign countries; the execution of original, substitution, reissue, divisional or continuation applications; and preliminary or other statements or the giving of testimony in any interference or other proceeding in which said inventions or any application, patent or like rights of exclusion, directed thereto may be involved; and we further hereby authorize ASSIGNEE or its attorneys or agents to insert the correct serial number and filing date into this assignment, if none is indicated on that date of our execution of this assignment;
