Assignment of Patent Rights To US Design Patents
D770,972 and D750,592

Infinergy Inc, a Colorado corporation located at 1077 Carriage Hills Dr., Boulder, Co 80302 ("Assignor") is the sole owner of U.S. Design Patent Applications Number: D770,972, titled "Charger Module", filed on June 23rd, 2014; and U.S. Design Patent Application Number: D750,592, titled "Radio", also filed on June 23rd, 2014 (the "Patent Applications"). Hydra Light International Ltd ("Assignee"), a Australian company located at: Level 2, 11-19 Bank Place, Melbourne, Victoria 3000, Australia desires to acquire all rights in and to the Patent Application and the patent (and any reissues or extensions that may be granted).

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of their right, title, and interest in the invention and Patent Applications, as well as such rights in any non-provisional applications, divisions, continuations in whole or part, or substitute applications filed therefrom; to Assignee for the entire term of the issued Patents and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications, as well as such rights in any non-provisional applications, divisions, continuations in whole or part, or substitute applications filed therefrom; filed claiming the benefit of the Patent Applications and any priority rights resulting from the Patent Applications.

Assignor authorizes the United States Patent and Trademark Office as well as all foreign patent offices to issue any Patents resulting from the Patent Applications to Assignee according to the percentage interest indicated in this assignment. The right, title, and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to (a) cooperate with Assignee in the prosecution of any Applications and foreign counterparts; (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patents for the invention in any and all countries.

Assignor further agrees to irrevocably designate and appoint Assignee and its duly authorized officers and agents as limited attorney-in-fact to act for and in Assignor's behalf and stead to execute and file any lawful and necessary documents, and to do all other lawfully permitted acts, required for the assignment of, application for, or prosecution of the inventions and Patent Applications, as well as such rights in any non-provisional applications, divisions, continuations in whole or part, or substitute applications filed therefrom; to Assignee for the entire term of the issued Patents and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications, as well as such rights in any non-provisional applications, divisions, continuations in whole or part, or substitute applications filed therefrom.

[To be completed by notary public] '18

On this 7th day of February, before me, Karen Medina the undersigned Notary Public, personally appeared Ivan Kruglak, CEO Infinergy Inc., ASSIGNOR, personally known to me (or proved to me on the basis of satisfactory evidence) to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same.

WITNESS my hand and official seal in Boulder county of CO on the date set forth in this certificate.
