PATENT AND TRADEMARK SECURITY AGREEMENT

THIS PATENT AND TRADEMARK SECURITY AGREEMENT (as the same may be amended, restated, supplemented or modified from time to time, this “**Agreement**”), dated as of January 11, 2018, is made by BLINKER INC., a Delaware corporation (the “**Grantor**”), in favor of GMIT LENDING COMPANY, LLC, a Colorado limited liability company (the “**Lender**”).

RECITALS

WHEREAS, pursuant to the Secured Promissory Note, dated as of the date hereof, by Grantor in favor of Lender (as the same may be amended, restated, supplemented or otherwise modified and in effect from time to time, the “**Note**”), Lender has agreed to make certain loans and other extensions of credit to or for the account of Grantor upon the terms and subject to the conditions set forth therein;

WHEREAS, pursuant to that certain Security Agreement, dated as of the date hereof (as the same may be amended, restated, supplemented or otherwise modified and in effect from time to time, being hereinafter referred to as the “**Security Agreement**”; capitalized terms used but not defined herein shall have the respective meanings ascribed to such terms in the Security Agreement), Grantor has granted to Lender a security interest in all of the assets of Grantor including all right, title and interest of Grantor in, to and under all now owned and hereafter acquired patents, patent applications, patent licenses, trademarks, trademark applications and licenses, together with the goodwill of the business symbolized by the foregoing, and all products and proceeds thereof, to secure the payment of the Obligations;

WHEREAS, Lender has required, as a condition, among others, to the making of any loans or other extensions of credit to Grantor, that Grantor execute and deliver this Agreement in favor of Lender.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor does hereby grant to Lender a continuing security interest in all of Grantor’s right, title and interest in, to and under the following (all of the following items or types of property being herein collectively referred to as the “**Patent and Trademark Collateral**”), whether now owned or existing or hereafter acquired or arising:

- (1) each patent and patent application, including, without limitation, each patent and patent application referred to in Schedule 1 annexed hereto, together with any reissues, continuations, continuations-in-part or extensions thereof and all goodwill associated therewith;
- (2) each patent license, including, without limitation, each patent license listed on Schedule 1 annexed hereto, together with all goodwill associated therewith;
- (3) each trademark and trademark application, including, without limitation, each trademark and trademark application referred to in Schedule 1 annexed hereto, together with any reissues, continuations, continuations-in-part or extensions thereof, and all goodwill associated therewith;

- (4) each trademark license, including without limitation, each trademark license listed on Schedule 1 annexed hereto, together with all goodwill associated therewith; and
- (5) all products and proceeds of the foregoing, including, without limitation, any claim by the Grantor against third parties for past, present or future infringement of any patent or trademark, including, without limitation, any patent or trademark referred to in Schedule 1 annexed hereto, any patent issued pursuant to a patent application or trademark issued pursuant to a trademark application referred to in Schedule 1, and any patent licensed under any patent license, or any trademark licensed under any trademark license, listed on Schedule 1 annexed hereto.

Further, this security interest is granted in conjunction with the security interests granted to Lender pursuant to the Security Agreement. Grantor hereby acknowledges and affirms that the rights and remedies of Lender with respect to the security interest in the Patent and Trademark Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

This Agreement may be executed in any number of counterparts and by different parties hereto in separate counterparts, each of which shall be deemed to be an original, but all of which taken together constitute one in the same Agreement. Delivery of an executed counterpart of this Agreement by facsimile or in pdf format shall be equally effective as delivery of an original executed counterpart.

This Agreement is made for collateral security purposes only. This Agreement shall create a security interest in the Patent and Trademark Collateral and shall terminate upon final payment and performance in full of the Obligations and termination of the Note, Security Agreement and the other Loan Documents. Upon such termination and at the written request of Grantor or its successors or assigns, and at the cost and expense of Grantor or its successors or assigns, the Lender shall execute in a timely manner such instruments, documents or agreements as are necessary or desirable to terminate the Lender's security interest in the Patent and Trademark Collateral, subject to any disposition thereof which may have been made by the Lender pursuant to this Agreement or the Security Agreement.
