ASSIGNMENT

WHEREAS, **BHAWNA TOMAR**, the "Assignor", has made the invention described in the United States provisional patent application entitled **SKEW CORRECTION FOR SOURCE SYNCHRONOUS SYSTEMS**, filed on **October 31, 2017** and assigned Application Serial No. **62/579,591**, and has made the invention described in the United States non-provisional patent application entitled, **SKEW CORRECTION FOR SOURCE SYNCHRONOUS SYSTEMS**, filed on **December 29, 2017** and assigned Application Serial No. **15/858,460**.

WHEREAS, **SanDisk Technologies LLC**, a corporation organized and existing under the laws of the State of **Texas**, having a place of business at **6900 Dallas Parkway, Suite 325, Plano, TX 75024**, the "Assignee", desires to acquire the entire right, title and interest in the inventions and the patent applications identified above, and all patents which may be obtained for the inventions, as set forth below;

NOW, THEREFORE, in consideration of valuable and legally sufficient consideration, the receipt of which by the Assignor from the Assignee is acknowledged, the Assignor has sold, assigned and transferred, and by these presents sell, assign and transfer to the Assignee, the entire right, title and interest for the United States in the invention and the patent applications identified above, and any patents that may issue for the inventions in the United States; with the entire right, title and interest in the invention and all patent applications and patents issuing therefrom in all countries foreign to the United States, including the full right to claim for any such application all benefits and priority rights under any applicable convention; with the entire right, title and interest in all continuations, divisions, renewals and extensions of any of the patent applications and patents defined above; with the right to recover all damages, including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application rights; to have hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents. The Assignor sells, assigns, and

transfers the entire right, title and interest to the Assignee as of the day of filing the non-provisional patent application identified above.

The Assignor covenants and agrees, for both the Assignor and the Assignor's legal representatives, that the Assignor will assist the Assignee in the prosecution of the patent applications identified above; in the making and prosecution of any other patent applications that the Assignee may elect to make covering the invention identified above; in vesting in the Assignee exclusive title in all such other patent applications and patents; and that the Assignor will execute and deliver to the Assignee all additional papers which may be requested by the Assignee to carry out the terms of this Assignment.

The Commissioner of Patents and Trademarks is authorized and requested to issue patents to the Assignee under the terms of this Assignment.

IN TESTIMONY WHEREOF, the Assignor has executed this agreement.
