ASSIGNMENT

In exchange for valuable consideration provided by Xciel, Inc., the receipt and sufficiency of which being hereby acknowledged, I, **Xavier Balourdet**, being the inventor of improvements in technology for intrinsically protecting mobile devices in rugged environments (sometimes hereinafter referred to as "ASSIGNOR"), including as claimed, disclosed, shown, or otherwise described in United States of America non-provisional patent application Serial Nos. 13/683,834, filed November 21, 2012, and 15/797,971 and 15/798,080, each filed October 30, 2017, do hereby ASSIGN, SELL, TRANSFER, and CONVEY to Xciel, Inc., a Texas corporation having a business address of 5554 South Peck Road, Katy, Texas 77450 (sometimes hereinafter called "ASSIGNEE"), its successors and assigns, the entire right, title and interest throughout the world in and to:

1. Said invention(s) claimed, disclosed, shown, and otherwise described in United States of America non-provisional patent application Serial No. 15/798,080, filed October 30, 2017; and sometimes referred to as "*Explosion Proof Assembly*";
2. Said invention(s) claimed, disclosed, shown, and otherwise described in United States of America non-provisional patent application Serial No. 15/797,971, filed October 30, 2017; and sometimes referred to as "*Explosion Proof Assembly*";
3. All applications and patents worldwide on said invention(s) and/or claiming priority or benefit, directly or indirectly, in whole or in part, to the foregoing applications, including but not limited to all United States non-provisional applications, Patent Cooperation Treaty applications, foreign (non-US) filed applications, national stage entry applications;
4. All applications for patent or like protection on said invention(s) that have now been or may in the future be made by us or our legal representatives, including any continuation, continuation-in-part and any other utility applications that may be based on this invention, whether in the United States of America or any other place anywhere in the world;
5. All patents and like protection that have now been or may in the future be granted on said invention(s) to us or our legal representatives, whether in the United States or in any other country or place anywhere in the world;
6. All substitutions for and divisions, continuations, continuations-in-part, renewals, reissues, extensions, and the like of said applications and patents and like grants, including without limitation, those obtained or permissible under past, present and future laws and statutes;

7. All rights of action on account of past, present and future unauthorized use of said invention(s) and for infringement of said patents and like protection;
8. The right in ASSIGNEE to file in its name applications for patents and like protection for said invention(s) in any country or countries foreign to the United States; and
9. All international rights of priority associated with said invention(s), applications, patents, and like protection;

ASSIGNOR covenants that he/she, and any applicable heirs, legal representatives, assigns, administrators, and executors, will, at the expense of ASSIGNEE, its successors and assigns, execute all papers and perform such other acts as may be reasonably necessary to give ASSIGNEE, its successors and assigns, the full benefit of this Assignment.

ASSIGNOR covenants, represents, and warrants that: he/she has disclosed the best mode known to him/her related to said invention(s), knows of no documents, disclosures, uses, or other prior art that would prevent patenting said invention, and has not transferred or assigned (and is not under an obligation to transfer or assign) the rights assigned, sold, and conveyed herein to ASSIGNEE to another person or entity.

ASSIGNOR further covenants, represents, and warrants that: he/she is an original and true inventor of said invention(s); the right, title, and interest herein conveyed is free and clear of any encumbrance; and he/she has the full right to convey the same as herein expressed.

EXECUTED on the date indicated below, opposite our signatures.
