Agreement Regarding Confidential Information and Intellectual Property

In consideration of my employment by International Business Machines Corporation (IBM) or my continued employment at will by IBM, and the payment to me of a salary or other compensation during my employment, I agree as follows:

1. I will not, without IBM's prior written permission, disclose to anyone outside of IBM and its subsidiaries or use in other than IBM's and its subsidiaries' business, either during or after my employment, any confidential information or material of IBM or its subsidiaries, or any information or material received in confidence from third parties such as suppliers or customers, by IBM or its subsidiaries. If I leave the employ of IBM, I will return to IBM all property in my possession, whether or not containing confidential information including but not limited to, diskettes and other storage media, drawings, notebooks, reports, and other documents belonging to IBM or its subsidiaries or received from any third party by IBM or any of its subsidiaries.

Confidential information or material of IBM or its subsidiaries is any information or material: (a) generated or collected by or utilized in the operations of IBM or its subsidiaries, (b) received from any third party, or (c) suggested by or resulting from any task assigned to me or work performed by me for or on behalf of IBM or its subsidiaries, and which has not been made available generally to the public, whether or not expressed in a document or other medium and whether or not marked "IBM Confidential" or with any similar legend of IBM or any third party.

2. I will not disclose to IBM or its subsidiaries, use in their business, or cause them to use, any information or material which is confidential to any third party. In addition, I will not incorporate into any product used and/or sold by IBM or its subsidiaries, any copyrighted materials of any third party, unless such incorporation by IBM or its subsidiaries has been authorized.

Confidential information or material may include, but is not limited to, past, present or future development, manufacturing activities, marketing or business plans, personnel matters, technical specifications, drawings, designs, prototypes, computer programs or databases.

3. I will comply, and do all things necessary for IBM and its subsidiaries to comply, with the laws and regulations of all governments under which IBM and its subsidiaries do business, and with provisions of contracts between any such government or its contractors and IBM or its subsidiaries that relate to intellectual property or to the safeguarding of information.

4. I hereby assign to IBM my entire right, title and interest in any idea, concept, technique, invention, design, (whether the design is ornamental or otherwise), computer programs and related documentation, other works of authorship, mask works and the like (all hereinafter called "Developments"), hereafter made, conceived, written or otherwise created solely or jointly by me, whether or not such Developments are patentable, subject to copyright protection or susceptible to any other form of protection which: (a) relate to the actual or anticipated business or research or development of IBM or its subsidiaries, or (b) are suggested by or result from any task assigned to me or work performed by me for or on behalf of IBM or its subsidiaries.

In the case of any "other works of authorship," such assignment shall be limited to those works of authorship which meet both conditions (a) and (b) above.

The above provisions concerning assignment of Developments apply to Developments created while I am employed by IBM in an executive, managerial, professional product or technical planning, technical, research, programming or engineering capacity (including development, product, manufacturing, systems, applied science, and field engineering).

I acknowledge that the copyright and any other intellectual property right in designs, computer programs and related documentation, and other works of authorship, created within the scope of my employment, belong to IBM by operation of law.

5. In connection with any of the Developments assigned by Paragraph 4: (a) I will promptly disclose them in writing to the IBM Intellectual Property Law Department; and (b) I will, on IBM's request, promptly execute a specific assignment of title to IBM or its designee, and do anything else reasonably necessary to enable IBM or such designee to secure a patent, copyright or other form of protection therefor in the United States and in other countries.
6. IBM, its subsidiaries, licensees, successors or assigns (direct or indirect) are not required to designate me as an author of any item which is subject to Paragraph 4, when such item is distributed, publicly or otherwise, or to secure my permission to change or otherwise alter the integrity of any such item. I hereby waive and release, to the extent permitted by law, all rights in and to such designation and any rights I may have concerning modifications of such items.

I understand that any rights, waivers, releases and assignments herein granted and made by me are freely assignable by IBM and are for the benefit of IBM and its subsidiaries, licensees, successors and assigns.

7. I have identified all Developments not assigned by Paragraph 4 in which I have any right, title or interest, and which were previously made or conceived solely or jointly by me, or written wholly or in part by me, but neither published nor filed in any patent office.

If I do not have any to identify, I have written "none" on this line: none

(It is in your interest to establish that any of the above were made, conceived or written before your employment by IBM. You should not disclose them in detail, but identify them only by the titles and dates of documents describing them. If you wish to interest IBM in any of them, you may contact External Submissions at Corporate Headquarters, which will provide you with instructions for submitting them to IBM.)

In addition, I agree to promptly notify the IBM Intellectual Property Law Department in writing of any patent in which I am an inventor but which is not assigned to IBM and which discloses or claims any Development made, conceived or written while I am employed by IBM.

8. The term "subsidiaries," as used in this Agreement, includes any entity owned or controlled, directly or indirectly, by IBM.

9. This Agreement supersedes all previous oral or written communications, representations, understandings, undertakings or agreements relating to the subject matter hereof. This Agreement may only be amended by written agreement of the parties.

10. This Agreement shall be governed by the laws of the State of New York, as if it had been executed and fully performed within such state.
