ASSIGNMENT

WHEREAS, the following individual (the "Inventor") has invented certain new and useful technical improvements:

Inventor: Dr. James Archer
Address: 25104 Broadwell Avenue, Harbor City, California 90710

WHEREAS, such improvements are disclosed in the following patent application:

Title: TREATMENT FOR CHRONIC RENAL FAILURE
Filed: December 6, 2012
U.S. Patent Application No.: 61/734,080

AND WHEREAS, Bio Health Solutions, LLC, having an address at 101 Convention Center Drive, Ste. 700, Las Vegas, NV 89109 (hereafter, together with any successors, legal representatives or assigns thereof, called "Assignee"), wants to acquire the entire right, title and interest in and to said improvements and application and any patents which may be granted thereon.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Inventor has sold, assigned, transferred and set over, and does hereby sell, assign, transfer and set over to Assignee his entire right, title and interest in and to said improvements and said application, including: all nonprovisional patent applications, divisions, substitutions, continuations and continuations-in-part of said application; all United States patents which may be granted thereon and all reissues, reexaminations, and extensions thereof; all priority rights under the International Convention for the Protection of Industrial Property for every member country; all applications for patents (including related rights such as utility-model registrations, inventor's certificates, and the like) heretofore or hereafter filed for said improvements and/or claiming priority to said application in any foreign countries; and all patents (including all extensions, renewals and reissues thereof) granted for said improvements in any foreign countries. The Inventor hereby authorizes and request the United States Commissioner of Patents and Trademarks, and any officials of foreign countries whose duty it is to issue patents on applications as aforesaid, to issue all patents for said improvements to Assignee in accordance with the terms of this assignment.

The Inventor hereby covenants that he has the full right to convey the entire interest herein assigned, and that he has not executed, and will not execute, an agreement in conflict herewith.

The Inventor hereby further covenants and agrees that he will communicate to Assignee any facts known to them respecting said improvements, and testify in any legal proceeding, sign all lawful papers, execute all nonprovisional, divisional, continuation, continuation-in-part, substitute and reissue applications, make all rightful oaths and generally do everything possible to aid Assignee to obtain and enforce proper patent protection for the improvements in all countries.

IN WITNESS WHEREOF, the parties hereto have executed this agreement.

I declare (or certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.
