Brenda Schmidt, an individual of the address 10926 Wintercove Way, Fishers, IN 46038, and Jeffrey Goens, an individual of the address of 11617 Brooks Ct., Carmel, IN 46033, and their successors, assigns, and legal representatives (hereinafter together the "Assignees") desire to secure the entire right, title and interest in and to the Inventions and Applications as joint owners.

For good and valuable consideration, the receipt and adequacy of which is acknowledged, Assignor hereby:

1. Sells, assigns and transfers to Assignees as joint owners the entire right, title and interest in and to the Inventions, the Applications, any other applications to which the Applications claim priority benefit, including but not limited to related provisional applications, any other patent applications based in whole or in part upon, or claiming priority to, the Inventions or Applications in any country (including nonprovisional, divisional, renewal, substitute, continuation, and continuation-in-part applications), and all patents which may be granted thereon (including all reissues, reexaminations, and extensions thereof);
2. Authorizes Assignees to file patent applications on the Invention in any country in the name of Assignees or otherwise as Assignees may deem advisable;
3. Authorizes and requests the Director of the United States Patent & Trademark Office, and such patent office officials in foreign countries as are duly authorized by their laws to issue patents, to issue any patents on the Inventions to Assignees as the owners of the entire right, title, and interest therein or otherwise as Assignees may direct;
4. Agrees, without expense to Assignor but without further consideration, to carry out in good faith the intent and purpose of this Assignment by executing all nonprovisional, divisional, renewal, substitute, continuation, continuation-in-part, reissue, and all other patent applications based on the Invention or claiming priority to the Applications; executing all rightful oaths, assignments, powers of attorney and other papers; communicating to Assignees all facts known to Assignor relating to the Invention and the history thereof; and generally, doing everything reasonably possible that Assignees shall consider desirable for aiding in securing, maintaining, and enforcing proper protection for the Invention and for vesting title in Assignees to the Invention, the Applications, and all other patent applications and patents based on the Invention;
5. Represents and warrants that Assignor has the full right to convey to Assignees the entire interest to the Invention, and that Assignor has not executed, and will not execute, any agreement in conflict herewith;

6. Agrees to transfer a like interest upon request of Assignees, and without further remuneration, in and to any improvements growing out of or relating to the Invention or any patent applications or patents based thereon;

7. Authorizes Assignees to insert in this Assignment the serial number and filing date of the Applications or any other information that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recording of this Assignment; and
