Patent Assignment Agreement

This patent assignment agreement ("Agreement") is entered into as of March 6, 2018, by and between Cradlepoint, Inc., a corporation organized and existing under the laws of the State of Delaware, and ("Assignee") and Pertino, Inc., a corporation organized and existing under the laws of the State of Delaware, and a wholly owned subsidiary of Assignee ("Assignor").

For good and valuable consideration, including but not limited to one dollar (\$1.00), the receipt of which is hereby acknowledged, Assignor hereby acknowledges that it has sold, assigned, conveyed and transferred, and by these presents does hereby irrevocably sell, assign, convey and transfer to Assignee and its successors and assigns:

- (1) the entire right, title and interest throughout the world in and to
 - a. the patent applications set forth on Exhibit 1 ("Patents"), including all patent applications therefor that may have been filed or may be filed hereafter for said Patents, and
 - b. any other rights in the Patents described in (a), including without limitation, all provisional applications relating thereto, and all divisional applications, renewal applications, continuation applications, continuation-in-part applications, and design applications thereof, and all issued patents of the United States which may have granted or may be granted hereafter thereon and all reissues, renewals, reexaminations, and extensions to any of the foregoing and all patents issuing thereon in the United States;
 - c. and all rights of priority under International Conventions, Treaties, or Agreements, and the entire right, title, and interest throughout the world in said Patents described in (a), including all inventions related thereto or thereof, and all patent applications therefor that may have been filed or may be filed hereafter for said Patents in any foreign country, countries, or treaty/union organizations, and all divisional applications, renewal applications, continuation applications, continuation-in-part applications, patent of addition applications, confirmation applications, validation applications, utility model applications, and design applications thereof, and all issued patents which may have granted or may be granted hereafter for said Patents in any country or countries foreign to the United States, and all reissues, renewals, reexaminations, and extensions thereof;(all of the foregoing in 1), collectively, the "Assigned Patents";
- (2) the right to sue third parties for infringement (including but not limited to damages and injunctive relief) of any of the Assigned Patents accrued based on activities occurring prior to the execution date hereof; and

- (3) any current or future right to receive royalties based on any of the foregoing in (1) or (2).

Assignor covenants and agrees that, without requiring additional consideration, Assignor will communicate promptly to said Assignee, its successors, its legal representatives, and its assigns, any facts known to it respecting said Assigned Patents, and will testify in any legal proceeding, sign all lawful papers, execute all applications and certificates, make all rightful declarations and/or oaths, and provide all lawful assistance to said Assignee, its successors, its legal representatives and its assigns, to obtain and enforce patent protection for said Assigned Patents in all countries;

Assignor represents that it has full and exclusive, unencumbered right to sell, assign, convey and transfer all subject matter herein, and hereby covenants that it has not and will not execute any writing or do any act whatsoever conflicting with these presents.
