ASSIGNMENT NUNC PRO TUNC

We,

- (2) Robert Johnstun  
577 S. 360 E. Circle

have invented a method and apparatus entitled **WEARABLE VITAL SIGN MONITOR** hereinafter called the "Invention."

Preferred embodiments of said invention are disclosed in a United States patent application executed heretofore and now identified as File No. 21264.1 of the law firm of Workman Nydegger, 60 East South Temple, Suite 1000, Salt Lake City, Utah 84111, and filed in the United States Patent and Trademark Office as Serial No. 15/495,759 on April 24, 2017.

WHEREAS, at the time of filing the invention, each of the above listed inventors were under an obligation to assign the Invention to the Rocojo, LLC ("Assignee"), a Utah limited liability corporation filed as entity number 9614759-0160, having a principal place of business at 1391 South 1140 East, Orem Utah 84097 ("Assignee"), as evidenced by the listing of Rocojo in the originally filed Application Data Sheet (ADS) with this matter. At the time, however, we did not execute and file a corresponding written assignment at the USPTO despite listing Rocojo in the ADS.

WHEREAS, since that time, Assignee Rocojo has now filed a name change with the Utah Corporate Registry (Division of Corporations and Commercial Code), effective at least as early as January 2018, to the name Monovo, LLC. As of January 30, 2018, the Utah Corporate Registry now lists entity number 9614759-0160 as Monovo, LLC (corrected assignee), and lists the name of Rocojo as "available" for registration by

others. As evidence, we herewith enclose redacted copies of the filing documents of Rocojo, and certificate of existence for Monovo.

WHEREAS, inasmuch as we never signed and executed an assignment to entity number 9614759-0160 in the name of Rocojo, but were under an obligation to assign to Rocojo, we now wish to memorialize that assignment to Rocojo under the new name of Monovo -- i.e., entity number 9614759-0160, effective immediately.

Assignee, Monovo, entity number 9614759-0160 in the State of Utah (previously Rocojo), desires to secure the entire right, title and interest in said invention.

In consideration of One Dollar (\$1.00) and other good and valuable consideration paid to us by the Assignee, the receipt and sufficiency of which we hereby acknowledge, we HEREBY ASSIGN TO THE ASSIGNEE:

The entire right, title and interest in said invention in the above-identified United States patent application and in all applications claiming the benefit thereof or priority thereto and in all divisions, continuations and continuations-in-part of said application, or reissues or extensions of Letters Patent or Patents granted thereon, and in all corresponding applications which may be filed in countries foreign to the United States, and in all patents issuing thereon in the United States and foreign countries.

The right to file foreign patent applications on said invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

All claims for damages and all of the remedies arising out of any infringement of the invention or the above-identified United States patent application which may have accrued prior to the date of this assignment or may accrue, including, but not limited to, the right to sue for and collect and retain damages for past infringements of the invention or the above-identified United States patent applications.

We hereby authorize and request the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent laws to issue patents, to issue any and all patents on said invention to the Assignee as the owner of the entire interest, for the sole use and behoof of the said Assignee, its successors, assigns and legal representatives.

We hereby agree, without further consideration and without expense to us, to sign all lawful papers and to perform all other lawful acts which the Assignee may request of us to make this Assignment fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all original, divisional, substitute, reissue, and other United States and foreign patent applications on said invention, and all lawful documents requested by the Assignee to further the prosecution of any of such patent applications.

Cooperation to the best of our ability in the execution of all lawful documents, the production of evidence, nullification, reissue, extension, or infringement proceedings involving said invention.

This assignment and agreement shall be binding upon our heirs and legal representatives and shall be effective as of April 24, 2017.

Dated this 15 day of MARCH, 2018.
