ASSIGNMENT

THIS PATENT ASSIGNMENT ("Assignment") is entered into effective as of the 15th day of February, 2018 by and between Capitalogix IP, LLC ("Assignor"), having a place of business at 327 Martel Lane, Coppell, TX 75019, and Capitalogix IP Owner, LLC ("Assignee"), having a place of business at 327 Martel Lane, Coppell, TX 75019.

WHEREAS, Assignee wishes to acquire, and Assignor wishes to assign, all of Assignor's right, title and interest in and to the patent applications and patents (collectively, the "Patents") set forth in Schedule A, attached hereto.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby irrevocably and unconditionally assign, transfer and set over to Assignee its entire right, title and interest in and to, including without limitation the right to make, to use and to vend, the Patents, in the United States and for all foreign countries, including any reissues, divisions, continuations, continuations-in-part, reexaminations, extensions, revisions or improvements thereof and foreign equivalents thereof, and including the subject matter of all claims that may be obtained therefrom, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made; together with all income, royalties, damages or payments due or payable as of the date hereof or thereafter, including, without limitation, (a) all rights, interests, claims and demands recoverable in law or equity that Assignor has or may have in profits and damages by reason of past, present or future infringement or other unauthorized use of the Patents, with the right to sue for, and collect the same for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns, or other legal representatives and (b) all rights to apply for registrations in foreign countries that Assignor has or may have with respect to any of the foregoing with full benefit of such priorities as may now or hereafter be granted to it by law or treaty, including any international convention.

Assignor authorizes and requests the United States Commissioner of Patents and Trademarks, and any officials of foreign countries whose duty is to issue patents on applications as aforesaid, to record Assignee as owner of the Patents, including any reissues, divisions, continuations, continuations-in-part, revisions, extensions or reexaminations thereof, and to issue

all letters patent of the United States, and foreign countries, thereon to Assignee, as assignee of its entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives.

At any time or from time to time after the date hereof, Assignor shall, at the request of Assignee and at Assignee's expense, execute and deliver any further instruments or documents and take all such further action as Assignee may reasonably request in order to evidence the consummation of this Assignment.

This Assignment shall be governed by and construed in accordance with the laws of the United States in respect of patent issues, and in all other respects, including as to validity, interpretation and effect, by the laws of the State of New York applicable to agreements made and to be performed wholly within such jurisdiction.
