PATENT ASSIGNMENT

This Patent Assignment (the "Assignment") is made and entered into by and between **Alexander de Paz** of 5444 Valleyhigh Drive, Burlington, Ontario L7L 6Z6, Canada ("ASSIGNOR"), and **Flextronics AP, LLC** ("ASSIGNEE"), a Colorado limited liability company whose address is 6201 America Center Drive, San Jose, California 95002.

WHEREAS, ASSIGNOR has made certain inventions, including but not limited to, U.S. provisional patent applications, U.S. nonprovisional patent applications, PCT patent applications, foreign patent applications, and other inventions as set forth in Appendix A (collectively, "the Inventions"), and

WHEREAS, ASSIGNEE desires to acquire the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, the applications, and any Letters Patents to be granted for the Inventions in the United States and in all foreign countries;

NOW, THEREFORE, in consideration of One Dollar (\$1.00) paid to ASSIGNOR by ASSIGNEE or other good and valuable consideration, the receipt, adequacy and legal sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignment. ASSIGNOR does hereby sell, assign, transfer, convey, and set over unto ASSIGNEE, its successors, legal representatives, and assigns, the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, not only in the United States and its territorial possessions, but in all countries foreign thereto to be obtained for the subject matter of the Inventions, and to any continuation, continuation-in-part, division, renewal, extension, substitute, re-examination or reissue thereof or any legal equivalent in the United States or a foreign country for the full term or terms for which the same may be granted, including all priority rights under any international conventions and treaties, together with all claims for damages and other remedies by reason of past infringements of the Inventions, whether arising prior to or subsequent to the date of this Assignment, along with the right to sue for and collect such damages and other remedies for the use and benefit of ASSIGNEE and its successors, assigns, and other legal representatives.

2. Authorization. ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and, in the case of any patent applications filed with any office of any country or countries foreign to the United States, any officer of such country whose duty it is to issue patents or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the same to ASSIGNEE and its successors, assigns, and other legal representatives in accordance with the terms of this Assignment.

3. Assignor's Warranty. ASSIGNOR covenants and agrees that ASSIGNOR has the full right to convey the entire right, title, and interest herein assigned by this Assignment and that ASSIGNOR has not executed and will not execute any assignment or other instrument in conflict with this Assignment.

4. Further Actions. ASSIGNOR further covenants and agrees that upon request by ASSIGNEE, its successors, legal representatives, and/or assigns, and without further consideration, ASSIGNOR will do all lawful acts that may be necessary or desirable to assist ASSIGNEE, its successors, legal representatives, and/or assigns to obtain and enforce patent protection for the Inventions in the United States and in all foreign countries, including, but not limited to, communicate with ASSIGNEE, its successors, legal representatives, and/or assigns any facts known to ASSIGNOR regarding the Inventions, testify in any legal proceeding, sign all lawful papers, execute and deliver all papers that may be necessary or desirable to perfect the title to the Inventions in ASSIGNEE, its

successors, legal representatives, and/or assigns, execute all divisional, continuation, continuation-in-part, reissue, reexamination, or any other applications, and make all rightful oaths, it being understood that any expense incident to the rendering of such assistance will be borne by ASSIGNEE, its successors, legal representatives, and/or assigns.

5. Authorization and Consent. ASSIGNOR hereby authorizes ASSIGNEE, or its attorneys or agents, to insert the correct Application Serial Number and Filing Date into this Assignment, if none is indicated on that date of ASSIGNOR's execution of this Assignment.

6. Governing Law. This Assignment and any disputes hereunder shall be governed by and construed in accordance with the domestic laws of the State of California, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of California or any other jurisdiction) that would cause the application of laws of any jurisdiction other than those of the State of California.

7. Severability. In the event that any clause, sub-clause or other provision contained in this Assignment shall be determined by any competent authority to be invalid, unlawful or unenforceable to any extent, such clause, sub-clause or other provision shall to that extent be severed from the remaining clauses and provisions, or the remaining part of the clause in question, which shall continue to be valid and enforceable to the fullest extent permitted by law.

8. Counterparts. This Assignment may be executed in two or more counterparts, all of which, taken together, shall be considered to be one and the same instrument.

9. Headings; Construction. The headings to the clauses, sub-clauses and parts of this Assignment are inserted for convenience of reference only and are not intended to be part of or to affect the meaning or interpretation of this Assignment.

10. Entire Assignment. This Assignment supersedes any arrangements, understandings, promises or agreements made or existing between the parties hereto prior to or simultaneously with this Assignment and constitutes the entire understanding between the parties hereto.

PATENT ASSIGNMENT

This Patent Assignment (the "Assignment") is made and entered into by and between **Karina A. Limongi** of 2109 Shady Glen Road, Oakville, Ontario L6M 3P1, Canada ("ASSIGNOR"), and **Flextronics AP, LLC** ("ASSIGNEE"), a Colorado limited liability company whose address is 6201 America Center Drive, San Jose, California 95002.

WHEREAS, ASSIGNOR has made certain inventions, including but not limited to, U.S. provisional patent applications, U.S. nonprovisional patent applications, PCT patent applications, foreign patent applications, and other inventions as set forth in Appendix A (collectively, "the Inventions"), and

WHEREAS, ASSIGNEE desires to acquire the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, the applications, and any Letters Patents to be granted for the Inventions in the United States and in all foreign countries;

NOW, THEREFORE, in consideration of One Dollar (\$1.00) paid to ASSIGNOR by ASSIGNEE or other good and valuable consideration, the receipt, adequacy and legal sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignment. ASSIGNOR does hereby sell, assign, transfer, convey, and set over unto ASSIGNEE, its successors, legal representatives, and assigns, the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, not only in the United States and its territorial possessions, but in all countries foreign thereto to be obtained for the subject matter of the Inventions, and to any continuation, continuation-in-part, division, renewal, extension, substitute, re-examination or reissue thereof or any legal equivalent in the United States or a foreign country for the full term or terms for which the same may be granted, including all priority rights under any international conventions and treaties, together with all claims for damages and other remedies by reason of past infringements of the Inventions, whether arising prior to or subsequent to the date of this Assignment, along with the right to sue for and collect such damages and other remedies for the use and benefit of ASSIGNEE and its successors, assigns, and other legal representatives.

2. Authorization. ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and, in the case of any patent applications filed with any office of any country or countries foreign to the United States, any officer of such country whose duty it is to issue patents or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the same to ASSIGNEE and its successors, assigns, and other legal representatives in accordance with the terms of this Assignment.

3. Assignor's Warranty. ASSIGNOR covenants and agrees that ASSIGNOR has the full right to convey the entire right, title, and interest herein assigned by this Assignment and that ASSIGNOR has not executed and will not execute any assignment or other instrument in conflict with this Assignment.

4. Further Actions. ASSIGNOR further covenants and agrees that upon request by ASSIGNEE, its successors, legal representatives, and/or assigns, and without further consideration, ASSIGNOR will do all lawful acts that may be necessary or desirable to assist ASSIGNEE, its successors, legal representatives, and/or assigns to obtain and enforce patent protection for the Inventions in the United States and in all foreign countries, including, but not limited to, communicate with ASSIGNEE, its successors, legal representatives, and/or assigns any facts known to ASSIGNOR regarding the Inventions, testify in any legal proceeding, sign all lawful papers, execute and deliver all papers that may be necessary or desirable to perfect the title to the Inventions in ASSIGNEE, its

successors, legal representatives, and/or assigns, execute all divisional, continuation, continuation-in-part, reissue, reexamination, or any other applications, and make all rightful oaths, it being understood that any expense incident to the rendering of such assistance will be borne by ASSIGNEE, its successors, legal representatives, and/or assigns.

5. Authorization and Consent. ASSIGNOR hereby authorizes ASSIGNEE, or its attorneys or agents, to insert the correct Application Serial Number and Filing Date into this Assignment, if none is indicated on that date of ASSIGNOR's execution of this Assignment.

6. Governing Law. This Assignment and any disputes hereunder shall be governed by and construed in accordance with the domestic laws of the State of California, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of California or any other jurisdiction) that would cause the application of laws of any jurisdiction other than those of the State of California.

7. Severability. In the event that any clause, sub-clause or other provision contained in this Assignment shall be determined by any competent authority to be invalid, unlawful or unenforceable to any extent, such clause, sub-clause or other provision shall to that extent be severed from the remaining clauses and provisions, or the remaining part of the clause in question, which shall continue to be valid and enforceable to the fullest extent permitted by law.

8. Counterparts. This Assignment may be executed in two or more counterparts, all of which, taken together, shall be considered to be one and the same instrument.

9. Headings; Construction. The headings to the clauses, sub-clauses and parts of this Assignment are inserted for convenience of reference only and are not intended to be part of or to affect the meaning or interpretation of this Assignment.

10. Entire Assignment. This Assignment supersedes any arrangements, understandings, promises or agreements made or existing between the parties hereto prior to or simultaneously with this Assignment and constitutes the entire understanding between the parties hereto.

PATENT ASSIGNMENT

This Patent Assignment (the "Assignment") is made and entered into by and between **Sanjiv Sirpal** of 3264 Stocksbridge Avenue, Oakville, Ontario L6M 0E3, Canada ("ASSIGNOR"), and **Flextronics AP, LLC** ("ASSIGNEE"), a Colorado limited liability company whose address is 6201 America Center Drive, San Jose, California 95002.

WHEREAS, ASSIGNOR has made certain inventions, including but not limited to, U.S. provisional patent applications, U.S. nonprovisional patent applications, PCT patent applications, foreign patent applications, and other inventions as set forth in Appendix A (collectively, "the Inventions"), and

WHEREAS, ASSIGNEE desires to acquire the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, the applications, and any Letters Patents to be granted for the Inventions in the United States and in all foreign countries;

NOW, THEREFORE, in consideration of One Dollar (\$1.00) paid to ASSIGNOR by ASSIGNEE or other good and valuable consideration, the receipt, adequacy and legal sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignment. ASSIGNOR does hereby sell, assign, transfer, convey, and set over unto ASSIGNEE, its successors, legal representatives, and assigns, the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, not only in the United States and its territorial possessions, but in all countries foreign thereto to be obtained for the subject matter of the Inventions, and to any continuation, continuation-in-part, division, renewal, extension, substitute, re-examination or reissue thereof or any legal equivalent in the United States or a foreign country for the full term or terms for which the same may be granted, including all priority rights under any international conventions and treaties, together with all claims for damages and other remedies by reason of past infringements of the Inventions, whether arising prior to or subsequent to the date of this Assignment, along with the right to sue for and collect such damages and other remedies for the use and benefit of ASSIGNEE and its successors, assigns, and other legal representatives.

2. Authorization. ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and, in the case of any patent applications filed with any office of any country or countries foreign to the United States, any officer of such country whose duty it is to issue patents or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the same to ASSIGNEE and its successors, assigns, and other legal representatives in accordance with the terms of this Assignment.

3. Assignor's Warranty. ASSIGNOR covenants and agrees that ASSIGNOR has the full right to convey the entire right, title, and interest herein assigned by this Assignment and that ASSIGNOR has not executed and will not execute any assignment or other instrument in conflict with this Assignment.

4. Further Actions. ASSIGNOR further covenants and agrees that upon request by ASSIGNEE, its successors, legal representatives, and/or assigns, and without further consideration, ASSIGNOR will do all lawful acts that may be necessary or desirable to assist ASSIGNEE, its successors, legal representatives, and/or assigns to obtain and enforce patent protection for the Inventions in the United States and in all foreign countries, including, but not limited to, communicate with ASSIGNEE, its successors, legal representatives, and/or assigns any facts known to ASSIGNOR regarding the Inventions, testify in any legal proceeding, sign all lawful papers, execute and deliver all papers that may be necessary or desirable to perfect the title to the Inventions in ASSIGNEE, its

successors, legal representatives, and/or assigns, execute all divisional, continuation, continuation-in-part, reissue, reexamination, or any other applications, and make all rightful oaths, it being understood that any expense incident to the rendering of such assistance will be borne by ASSIGNEE, its successors, legal representatives, and/or assigns.

5. Authorization and Consent. ASSIGNOR hereby authorizes ASSIGNEE, or its attorneys or agents, to insert the correct Application Serial Number and Filing Date into this Assignment, if none is indicated on that date of ASSIGNOR's execution of this Assignment.

6. Governing Law. This Assignment and any disputes hereunder shall be governed by and construed in accordance with the domestic laws of the State of California, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of California or any other jurisdiction) that would cause the application of laws of any jurisdiction other than those of the State of California.

7. Severability. In the event that any clause, sub-clause or other provision contained in this Assignment shall be determined by any competent authority to be invalid, unlawful or unenforceable to any extent, such clause, sub-clause or other provision shall to that extent be severed from the remaining clauses and provisions, or the remaining part of the clause in question, which shall continue to be valid and enforceable to the fullest extent permitted by law.

8. Counterparts. This Assignment may be executed in two or more counterparts, all of which, taken together, shall be considered to be one and the same instrument.

9. Headings; Construction. The headings to the clauses, sub-clauses and parts of this Assignment are inserted for convenience of reference only and are not intended to be part of or to affect the meaning or interpretation of this Assignment.

10. Entire Assignment. This Assignment supersedes any arrangements, understandings, promises or agreements made or existing between the parties hereto prior to or simultaneously with this Assignment and constitutes the entire understanding between the parties hereto.

PATENT ASSIGNMENT

This Patent Assignment (the "Assignment") is made and entered into by and between **Mohammed Selim** of 2488 Oakhaven Drive, Oakville, Ontario L6M4B9, Canada ("ASSIGNOR"), and **Flextronics AP, LLC** ("ASSIGNEE"), a Colorado limited liability company whose address is 6201 America Center Drive, San Jose, California 95002.

WHEREAS, ASSIGNOR has made certain inventions, including but not limited to, U.S. provisional patent applications, U.S. nonprovisional patent applications, PCT patent applications, foreign patent applications, and other inventions as set forth in Appendix A (collectively, "the Inventions"), and

WHEREAS, ASSIGNEE desires to acquire the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, the applications, and any Letters Patents to be granted for the Inventions in the United States and in all foreign countries;

NOW, THEREFORE, in consideration of One Dollar (\$1.00) paid to ASSIGNOR by ASSIGNEE or other good and valuable consideration, the receipt, adequacy and legal sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignment. ASSIGNOR does hereby sell, assign, transfer, convey, and set over unto ASSIGNEE, its successors, legal representatives, and assigns, the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, not only in the United States and its territorial possessions, but in all countries foreign thereto to be obtained for the subject matter of the Inventions, and to any continuation, continuation-in-part, division, renewal, extension, substitute, re-examination or reissue thereof or any legal equivalent in the United States or a foreign country for the full term or terms for which the same may be granted, including all priority rights under any international conventions and treaties, together with all claims for damages and other remedies by reason of past infringements of the Inventions, whether arising prior to or subsequent to the date of this Assignment, along with the right to sue for and collect such damages and other remedies for the use and benefit of ASSIGNEE and its successors, assigns, and other legal representatives.

2. Authorization. ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and, in the case of any patent applications filed with any office of any country or countries foreign to the United States, any officer of such country whose duty it is to issue patents or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the same to ASSIGNEE and its successors, assigns, and other legal representatives in accordance with the terms of this Assignment.

3. Assignor's Warranty. ASSIGNOR covenants and agrees that ASSIGNOR has the full right to convey the entire right, title, and interest herein assigned by this Assignment and that ASSIGNOR has not executed and will not execute any assignment or other instrument in conflict with this Assignment.

4. Further Actions. ASSIGNOR further covenants and agrees that upon request by ASSIGNEE, its successors, legal representatives, and/or assigns, and without further consideration, ASSIGNOR will do all lawful acts that may be necessary or desirable to assist ASSIGNEE, its successors, legal representatives, and/or assigns to obtain and enforce patent protection for the Inventions in the United States and in all foreign countries, including, but not limited to, communicate with ASSIGNEE, its successors, legal representatives, and/or assigns any facts known to ASSIGNOR regarding the Inventions, testify in any legal proceeding, sign all lawful papers, execute and deliver all papers that may be necessary or desirable to perfect the title to the Inventions in ASSIGNEE, its

successors, legal representatives, and/or assigns, execute all divisional, continuation, continuation-in-part, reissue, reexamination, or any other applications, and make all rightful oaths, it being understood that any expense incident to the rendering of such assistance will be borne by ASSIGNEE, its successors, legal representatives, and/or assigns.

5. Authorization and Consent. ASSIGNOR hereby authorizes ASSIGNEE, or its attorneys or agents, to insert the correct Application Serial Number and Filing Date into this Assignment, if none is indicated on that date of ASSIGNOR's execution of this Assignment.

6. Governing Law. This Assignment and any disputes hereunder shall be governed by and construed in accordance with the domestic laws of the State of California, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of California or any other jurisdiction) that would cause the application of laws of any jurisdiction other than those of the State of California.

7. Severability. In the event that any clause, sub-clause or other provision contained in this Assignment shall be determined by any competent authority to be invalid, unlawful or unenforceable to any extent, such clause, sub-clause or other provision shall to that extent be severed from the remaining clauses and provisions, or the remaining part of the clause in question, which shall continue to be valid and enforceable to the fullest extent permitted by law.

8. Counterparts. This Assignment may be executed in two or more counterparts, all of which, taken together, shall be considered to be one and the same instrument.

9. Headings; Construction. The headings to the clauses, sub-clauses and parts of this Assignment are inserted for convenience of reference only and are not intended to be part of or to affect the meaning or interpretation of this Assignment.

10. Entire Assignment. This Assignment supersedes any arrangements, understandings, promises or agreements made or existing between the parties hereto prior to or simultaneously with this Assignment and constitutes the entire understanding between the parties hereto.

PATENT ASSIGNMENT

This Patent Assignment (the "Assignment") is made and entered into by and between **Salvador Soto** of 3902-25 Capreol Court, Toronto, Ontario M5V 3Z7, Canada ("ASSIGNOR"), and **Flextronics AP, LLC** ("ASSIGNEE"), a Colorado limited liability company whose address is 6201 America Center Drive, San Jose, California 95002.

WHEREAS, ASSIGNOR has made certain inventions, including but not limited to, U.S. provisional patent applications, U.S. nonprovisional patent applications, PCT patent applications, foreign patent applications, and other inventions as set forth in Appendix A (collectively, "the Inventions"), and

WHEREAS, ASSIGNEE desires to acquire the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, the applications, and any Letters Patents to be granted for the Inventions in the United States and in all foreign countries;

NOW, THEREFORE, in consideration of One Dollar (\$1.00) paid to ASSIGNOR by ASSIGNEE or other good and valuable consideration, the receipt, adequacy and legal sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignment. ASSIGNOR does hereby sell, assign, transfer, convey, and set over unto ASSIGNEE, its successors, legal representatives, and assigns, the entire right, title, and interest in and to the Inventions listed in the attached Appendix A, not only in the United States and its territorial possessions, but in all countries foreign thereto to be obtained for the subject matter of the Inventions, and to any continuation, continuation-in-part, division, renewal, extension, substitute, re-examination or reissue thereof or any legal equivalent in the United States or a foreign country for the full term or terms for which the same may be granted, including all priority rights under any international conventions and treaties, together with all claims for damages and other remedies by reason of past infringements of the Inventions, whether arising prior to or subsequent to the date of this Assignment, along with the right to sue for and collect such damages and other remedies for the use and benefit of ASSIGNEE and its successors, assigns, and other legal representatives.

2. Authorization. ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and, in the case of any patent applications filed with any office of any country or countries foreign to the United States, any officer of such country whose duty it is to issue patents or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the same to ASSIGNEE and its successors, assigns, and other legal representatives in accordance with the terms of this Assignment.

3. Assignor's Warranty. ASSIGNOR covenants and agrees that ASSIGNOR has the full right to convey the entire right, title, and interest herein assigned by this Assignment and that ASSIGNOR has not executed and will not execute any assignment or other instrument in conflict with this Assignment.

4. Further Actions. ASSIGNOR further covenants and agrees that upon request by ASSIGNEE, its successors, legal representatives, and/or assigns, and without further consideration, ASSIGNOR will do all lawful acts that may be necessary or desirable to assist ASSIGNEE, its successors, legal representatives, and/or assigns to obtain and enforce patent protection for the Inventions in the United States and in all foreign countries, including, but not limited to, communicate with ASSIGNEE, its successors, legal representatives, and/or assigns any facts known to ASSIGNOR regarding the Inventions, testify in any legal proceeding, sign all lawful papers, execute and deliver all papers that may be necessary or desirable to perfect the title to the Inventions in ASSIGNEE, its

successors, legal representatives, and/or assigns, execute all divisional, continuation, continuation-in-part, reissue, reexamination, or any other applications, and make all rightful oaths, it being understood that any expense incident to the rendering of such assistance will be borne by ASSIGNEE, its successors, legal representatives, and/or assigns.

5. Authorization and Consent. ASSIGNOR hereby authorizes ASSIGNEE, or its attorneys or agents, to insert the correct Application Serial Number and Filing Date into this Assignment, if none is indicated on that date of ASSIGNOR's execution of this Assignment.

6. Governing Law. This Assignment and any disputes hereunder shall be governed by and construed in accordance with the domestic laws of the State of California, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of California or any other jurisdiction) that would cause the application of laws of any jurisdiction other than those of the State of California.

7. Severability. In the event that any clause, sub-clause or other provision contained in this Assignment shall be determined by any competent authority to be invalid, unlawful or unenforceable to any extent, such clause, sub-clause or other provision shall to that extent be severed from the remaining clauses and provisions, or the remaining part of the clause in question, which shall continue to be valid and enforceable to the fullest extent permitted by law.

8. Counterparts. This Assignment may be executed in two or more counterparts, all of which, taken together, shall be considered to be one and the same instrument.

9. Headings; Construction. The headings to the clauses, sub-clauses and parts of this Assignment are inserted for convenience of reference only and are not intended to be part of or to affect the meaning or interpretation of this Assignment.

10. Entire Assignment. This Assignment supersedes any arrangements, understandings, promises or agreements made or existing between the parties hereto prior to or simultaneously with this Assignment and constitutes the entire understanding between the parties hereto.
