PATENT AND CONFIDENTIALITY AGREEMENT

In consideration and as a condition of my employment or continued employment by AEROVIRONMENT, INC. (the "Company") as an employee or contract personnel and the compensation paid therefor:

1. Assignment of Inventions. I hereby assign and transfer to the Company my entire right, title and interest in and to all inventions, improvements, discoveries, ideas, designs, documents, and other data (whether or not patentable) made, conceived, or first reduced to practice by me, whether solely or jointly with others, during the period of my employment with the Company (the "Inventions"), which relate in any manner to the actual or anticipated business or research and development of the Company or its subsidiaries, or result from [or are suggested] by any task assigned to me or by any of the work I have performed or may perform for the Company. This Agreement, however, does not require assignment of an Invention which qualifies fully for protection under Section 2870 of the California Labor Code (hereinafter "Section 2870"). In the event any Invention relating in any manner to the actual or anticipated business or research and development of the Company or its subsidiaries is disclosed by me under paragraph 2 within six (6) months after leaving the employ of the Company, it is to be presumed that such Invention was conceived or resulted from developments made during the period of my employment by the Company and I agree that any such Invention will belong to the Company, subject to the provisions of Section 2870.

2. Disclosure of Inventions; Patents. I agree promptly to disclose all Inventions to my supervisor, or to whomever else may be designated by the Company, regardless of whether I believe the Invention is protected by Section 2870, in order to permit the Company to claim rights to which it may be entitled under this Agreement. Such disclosure shall be received in confidence by the Company. With respect to all Inventions which are to be assigned pursuant to paragraph 1, I will assist the Company in any reasonable manner to obtain for its own benefit patents thereon in any and all countries, and I will execute when requested, patent applications and assignments thereof to the Company, or persons designated by it, and any other lawful documents deemed necessary by the Company to carry out the purposes of this Agreement, and I will further assist the Company in every reasonable way to enforce any patents obtained, including, without limitation, testifying in any suit or proceeding involving any of said patents or executing any documents deemed necessary by the Company, all without further consideration than provided for herein, but at the expense of the Company. I agree to preserve such Inventions as confidential information of the Company. I further agree that the obligations and undertakings stated in this paragraph 2 shall continue beyond the termination of my employment by the Company, but if I am called upon to render such assistance after the termination of my employment, then I shall be entitled to a fair and reasonable per diem fee in addition to reimbursement of any expenses incurred at the request of the Company. I agree to keep and maintain adequate and current written records of all such Inventions made by me (in the form of notes, sketches, drawings and as may be specified by the Company), which records shall be available to and remain the property of the Company at all times.

3. Confidentiality. I agree that without the Company's prior express consent, I will not during my employment by the Company engage directly or indirectly in any employment, consulting or activity other than for the Company in any business in which the Company is now or may hereafter become engaged. I agree that I will not during my employment by the Company or thereafter at any time disclose directly or indirectly to any person or entity or use for my own benefit any trade secrets or confidential information relating to products, processes, know-how, machines, designs, drawings, software, formulas, test data, marketing data, business plans and strategies, employees, negotiations and contracts with other companies, disclosures and applications for patents and the status of their prosecution, or any other confidential subject matter pertaining to any of the business of the Company or any of its clients, customers, consultants, licensees or affiliates, known to, learned or acquired by me during the period of my employment, except to such an extent as may be necessary in the ordinary course of performing my particular duties as an employee of the Company. I acknowledge that all the foregoing information is proprietary to the Company and is a special, valuable and unique asset of the business of the Company, and that my employment creates a relationship of confidence and trust between myself and the Company with respect to the proprietary information.

4. Prior Inventions. All inventions which I have made prior to my employment by the Company shall be excluded from the scope of this Agreement. As a matter of record, I have set forth at the end of this Agreement a complete list of all inventions, discoveries or improvements relating to the Company's business which I have conceived prior to my employment with the Company. I represent and covenant that the list is complete and that, if no items are on the list, I have no such prior inventions.

5. Return of Confidential Material. I agree to deliver promptly to the Company on termination of my employment with the Company, whether or not for cause and whatever the reason, or at any time it may so request, all memoranda, notes, records, reports, manuals, drawings, blueprints, and any other documents of a confidential nature belonging to the Company, including all copies of materials which I may then possess or have under my control. I further agree that upon termination of my employment that I shall not take with me any documents or data of any description containing or pertaining to the proprietary information of the Company as set forth in paragraph 3.

6. Customer Lists and Employees. I agree that I shall not for a period of six (6) months immediately following the termination of my employment with the Company for any reason, whether with or without cause, either directly or indirectly: (1) solicit or take away any of the customers of the Company on whom I called or with whom I became acquainted during my employment with the Company, either for myself or for any other person or entity, or (2) solicit or take away, or attempt to solicit or take away any employees of the Company either for myself or for any other person or entity.

7. Trade Secrets of Others. I represent that my performance of all the terms of this Agreement and as an employee of the Company does not and will not breach any agreement to keep in confidence proprietary information or trade secrets acquired by me in confidence or in trust prior to my employment with the Company, and I will not disclose to the Company, or induce the Company to use, any confidential or proprietary information or material belonging to any previous employer or others. I agree not to enter into any agreement either written or oral in conflict herewith.

REEL: 045389 FRAME: 0793

8. Other Obligations. I acknowledge that the Company from time to time may have agreements with other persons or with the U.S. Government, or agencies thereof, which impose obligations or restrictions on the Company regarding inventions made during the course of work thereunder or regarding the confidential nature of such work. I agree to be bound by all such obligations and restrictions of which I become aware and to take all reasonable action necessary to discharge the obligations of the Company thereunder.

9. Injunctive Relief. I agree that it would be difficult to measure the damage to the Company from any breach by me of the covenants set forth in paragraphs 1, 2, 3, 5 or 6 herein, that injury to the Company from any such breach would be impossible to calculate, and that money damages would therefore be an inadequate remedy for any such breach. Accordingly, I agree that if I breach paragraphs 1, 2, 3, 5 and 6, or any of them, the Company shall be entitled, in addition to all other remedies it may have, to injunctions or other appropriate orders to restrain any such breach without showing or proving any actual damage to the Company.

10. General. I acknowledge receipt of this Agreement and agree that, with respect to the subject matter hereof, this Agreement is my entire agreement with the Company, superseding any previous oral or written communications, representations, understandings, or agreements with the Company or any officer or representative thereof. This Agreement shall inure to the benefit of the successors and assigns of the Company, and shall be binding upon my heirs, assigns, administrators and representatives. To the extent that any of the agreements set forth herein, or any word, phrase, clause or sentence thereof shall be found to be illegal or unenforceable for any reason, such agreement, word, phrase, clause or sentence shall be modified or deleted in such a manner so as to make the Agreement, as modified, legal and enforceable under applicable laws. This Agreement shall be governed by the laws of the State of California, which state shall have jurisdiction of the subject matter hereof. This Agreement may not be changed, modified, released, discharged, abandoned, or otherwise amended, in whole or in part, except by an instrument in writing signed by the Employee and the Company.
