PATENT ASSIGNMENT

WHEREAS I, Richard Scott Shallcross ("Inventor"), citizen of the United States of America, at 802 Fuqua Street, Arlington, Texas 76012, own a design patent entitled "NPT/UN Thread Identification Kit" which I wish to assign to Fittings Unlimited, Inc. ("Assignee"); and

WHEREAS this invention is subject of U.S. Patent Application No. 29/575,850, filed 08/30/2016, and potentially patent applications in other countries; and

WHEREAS Assignee desires to acquire the entire right, title, and interest in and to said invention, any Letters Patent wherever they may be issued thereon, and any derivative inventions;

NOW, THEREFORE, be it known that for and in consideration of the sum of \$10.00 to me paid in hand by Assignee, and for other good and valuable consideration in the form of assumption of debt related to the Patent, the receipt of which is hereby acknowledged, I sell, assign, and transfer to Assignee, the entire right, title, and interest in and to said invention, including any rights to any and all Letters Patent wherever they may be granted thereon as well as reissues and extensions of said Letters Patent, the same to be held and enjoyed by Assignee to the full end of the term or terms for which Letters of Patent are or may be granted, reissued, or extended, as fully and entirely as the same would have been held or enjoyed by me had this assignment not been made. In addition to the rights assigned herein, I also assign to Assignee the liability for the attorney's fees and costs due to Norred Law, PLLC that were incurred in connection with obtaining the above stated U.S. Patent Application No. 29/575,850.

I agree to make, execute, and deliver unto Assignee any and all papers, documents, affidavits, renewal, divisional and reissue applications statements, or other instruments in such usual or other forms, terms, and contents as may be required or its duly authorized representative, in or incident to the prosecution or conduct of any and all applications, before as well as after the issuance of any Letters Patent thereon, or in the adjustment or settlement of any interferences or other actions or proceedings that said applications may encounter or in which they may become involved, and I agree that I will assist Assignee in every way in protecting the invention as may be requested or its assigns, *except* that any expenses arising through extending such assistance will be paid for by proper arrangement with Assignee.
