ASSIGNMENT

Whereas, the undersigned inventor(s) has/have made certain inventions and improvements (herein referred to as the "Invention") disclosed in a U.S. patent application identified by U.S. patent application serial no. 15/918,049 and Attorney Docket No. Knap-0110 and entitled:

"Self Fixturing Sidepack Cabinets for Utility Truck Body".

Whereas, The Knapheide Manufacturing Company ("Assignee"), a corporation of Illinois having a place of business at 1848 Westphalia Strasse, Quincy, Illinois 62305, desires to acquire, and each undersigned inventor desires to grant to Assignee, the entire worldwide right, title, and interest in and to said Invention including any and all patent applications and Letters Patent(s) that may be granted for said Invention in the United States of America and any foreign countries.

Now, therefore, for good and valuable consideration, the receipt and sufficiency thereof being hereby acknowledged, each undersigned inventor ("Assignor") hereby sells, assigns, or otherwise transfers, or acknowledges having previously sold, assigned, or otherwise transferred, unto said Assignee the full and exclusive world-wide rights to the said Invention, including all rights in all foreign countries and the United States of America, its territories, dependencies, and possessions, and the entire right, title, and interest in and to any and all Letters Patent(s) which may be granted therefor in all foreign countries and the United States of America, and to any and all divisions, reissues, continuations, continuations-in-part, conversions, and extensions thereof for the full term or terms for which the same may be granted.

Each undersigned Assignor acknowledges their existing and ongoing obligations to sell, assign, and transfer the rights under this Assignment to Assignee and is unaware of any reason preventing the full and unencumbered right to sell, assign, and transfer the rights hereby sold, assigned, and transferred.

Each undersigned Assignor agrees to execute all papers necessary in connection with any separate patent application(s), including assignment(s), for the Invention as the Assignee may deem necessary or expedient in the United States of America and any foreign country. The undersigned agrees to execute all papers and documents and to perform any act which may be needed in connection with the patent application(s) associated with this Assignment.

This Assignment is being provided prior to filing of the "Self Fixturing Sidepack Cabinets for Utility Truck Body" patent application identified by Attorney Docket No. Knap-0110. The undersigned agree to allow information to be filled in on this document for the U.S. patent application serial number once the serial number becomes known upon filing of the application.

This Assignment is governed by the substantive laws of the State of Illinois, and any disputes will be resolved in an Illinois state court or a federal court sited in Illinois.
