RECITALS

As used herein “Invention” means the patents and patent applications listed in Schedule A including all inventions or embodiments described in such patents and patent applications, and further including without limitation, all divisional, continuation, continuation-in-part, request for continued examination, and continued prosecution applications thereof, and all reissues and reexaminations thereof, and all foreign counterparts thereof and Letters Patent issuing from any such patent applications.

1. The Assignor hereby sells, assigns, and transfers to Assignee such Assignor’s entire right, title, and interest in and to the Inventions, including, without limitation, the rights to file foreign patent applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

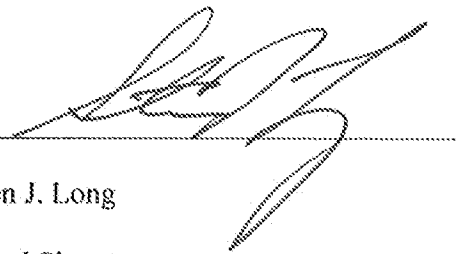

2. The Assignor agrees that, upon request and without further compensation, but at no expense to such Assignor, such Assignor and such Assignor’s legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing the Inventions in the United States and throughout the world, and for perfecting, recording, or maintaining the title of Assignee, and Assignee’s successors and assigns, in and to the Inventions in the United States and throughout the world.
