Capitalized terms not otherwise defined in this Agreement are being used in this Agreement as defined in the Secured Promissory Note.

Pursuant to the Secured Promissory Note, Grantor has granted to Administrative Agent, for the benefit of the Lender, a security interest in substantially all of its assets, including all of its right, title, and interest in, to, and under all now owned and hereafter acquired Patents, Patent applications, Patent licenses, and all products and proceeds thereof, as collateral security for the prompt and complete payment and performance when due (whether at the stated maturity, by acceleration or otherwise) of the obligations under the Secured Promissory Note. Pursuant to the Secured Promissory Note, Grantor is required to execute and deliver this Agreement to Administrative Agent for benefit of the Lender.

In consideration of the mutual agreements set forth herein and in the Secured Promissory Note, Grantor does hereby grant to Administrative Agent for the benefit of the Lender and, a continuing security interest in all of Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired:

- (1) each Patent and Patent application, including, without limitation, each Patent and Patent application referred to in Schedule 1, together with any reissues, continuations or extensions thereof; and

This security interest is granted in conjunction with the security interests granted to Administrative Agent pursuant to the Secured Promissory Note and subject to limitations set forth therein. Grantor hereby acknowledges and affirms that the rights and remedies of Administrative Agent with respect to the security interest in the Patent Collateral made and granted hereby are more fully set forth in the Secured Promissory Note, the terms and provisions of each of which are incorporated by reference herein as if fully set forth herein.
