The Assignor further agrees that, upon request and without further compensation, but at no expense to the Assignor, the Assignor or his legal representatives or heirs will undertake any lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing any patent rights that arise from this assignment in the United States and throughout the world, and for perfecting, recording, or maintaining the title of the Assignee, its successors and assigns, to any patent rights that arise from this assignment.

The Assignor represents and warrants that he has not granted and will not grant to others any rights inconsistent with the rights granted herein.

The Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States and of the Patent Office of any other country to issue to the Assignee any patent granted that arises from the patent rights assigned to the Assignor herein, including but not limited to patent rights that arise from patent continuations or requests for continued patent examinations.
