CONFIRMATORY GRANT OF SECURITY INTEREST IN PATENTS

This Confirmatory Grant of Security Interest in Patents, dated January 26, 2018 (this "Confirmatory Grant"), is delivered by CASE-MATE, INC., a Georgia corporation ("Grantor") pursuant to Section 4.7 of that certain Pledge and Security Agreement, dated January 26, 2018, between Grantor and JPMORGAN CHASE BANK, N.A., as the Administrative Agent (as amended, restated, supplemented or otherwise modified from time to time, the "Security Agreement"). All defined terms herein shall have the meanings ascribed thereto or incorporated by reference in the Security Agreement.

For good and valuable consideration, Grantor hereby agrees and confirms as follows for the benefit of the Administrative Agent:

1. Grant of Security Interest in Patent Collateral. Grantor, as collateral security for the prompt and complete payment and performance when due (whether at stated maturity, by acceleration or otherwise) of the Secured Obligations, hereby mortgages, pledges and hypothecates to the Administrative Agent, for the benefit of the Secured Parties, and grants to the Administrative Agent, for the benefit of the Secured Parties, a Lien on and security interest in, all of its right, title and interest in, to and under the following Collateral (the "Patent Collateral"):

- (a) all of its Patents, including, without limitation, those referred to on Schedule I hereto;
- (b) all reissues, reexaminations, continuations, continuations-in-part, divisions, renewals and extensions of the foregoing; and
- (c) all income, royalties, proceeds and liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

2. Security Agreement. The security interest granted and confirmed pursuant to this Confirmatory Grant is granted and confirmed in conjunction with the security interest granted to the Administrative Agent pursuant to the Security Agreement, and Grantor hereby acknowledges and agrees that the rights and remedies of the Administrative Agent with respect to the security interest in the Patent Collateral made, granted and confirmed hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

3. Grantor Remains Liable. Grantor hereby agrees that, anything herein to the contrary notwithstanding, Grantor shall assume full and complete responsibility for the prosecution, defense, enforcement or any other necessary or desirable actions in connection with its Patents and Patent Licenses subject to a security interest hereunder.

4. Counterparts. This Confirmatory Grant may be executed in any number of counterparts and by different parties in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Signature pages may be detached from multiple separate counterparts and attached to a single counterpart.
