## ASSIGNMENT OF PATENT RIGHTS

WHEREAS, Arlington Scientific, Inc., a Utah corporation, having a place of business at 1844 N. Technology Drive, Springville, Utah (the "Assignor"), is the owner of the entire right, title and interest in and to the Patents and Patent Applications listed in the attached Schedule A and the inventions and improvements described therein;

WHEREAS, King's Pond, LLC, a Utah limited liability company, having a place of business at 7918 South 1530 West, West Jordan, Utah 84088 (the "Assignee"), desires to purchase and acquire the entire right, title, and interest in and to the said Patents and Patent Applications identified in Schedule A and the inventions and improvements described therein;

NOW, THEREFORE, in exchange for the sum of Ten Dollars (\$10.00), and other good and valuable consideration, including but not limited to the execution of a certain Asset Purchase Agreement by the Assignee with the Assignor, the receipt and sufficiency of which are hereby acknowledged by the Assignor:

1. The Assignor does hereby sell, assign, grant, transfer and convey, free from all encumbrances, to the Assignee, its successors and assigns:

(a) all rights, title and interest in and to said Patents and Patent Applications identified in Schedule A, any inventions and improvements therein disclosed, and any utility models, designs, validations, divisional, continuations, continuations-in-part, and non-provisional applications of or claiming priority to any of the preceding, in the United States or countries foreign to the United States, and any other application corresponding or claiming priority to said Patents, Patent Applications, any of the above identified applications, and any United States or foreign patents issuing from, corresponding to, or claiming priority to said Patents and Patent

Applications or any of the preceding applications, and/or any reissues, reexaminations, renewals, or extensions of the preceding;

(b) the right to file and prosecute foreign patent applications corresponding or claiming priority to said Patents and Patent Applications, or any of the preceding applications, in its own name, wherever such right may be legally exercised, including the right to claim the benefits of any international convention or treaty for such applications; and

(c) the right to sue for past, present, and/or future infringement of any patent issuing from, corresponding to, or claiming priority to any of the preceding and to collect damages therefor.

2. The Assignor hereby authorizes and requests the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent laws to issue patents, to issue any and all patents on said inventions and improvements disclosed in any of the preceding to the Assignee as the owner of the entire interest, for the sole use and benefit of the said Assignee, its successors, assigns and legal representatives.

3. The Assignor hereby further agrees, without further consideration and without expense to Assignor to sign all lawful papers and to perform all other lawful acts which the Assignee may reasonably request of the Assignor to make the Assignment fully effective, including, by way of example but not of limitation, the following:

(a) prompt performance of all other acts and execution of all additional documents reasonably requested by the Assignee or its successors or assigns to further the prosecution, maintenance, enforcement, or recordation of any of said Patents and Patent Applications, and any other preceding application or invention, and the inventions and improvement described therein,

including, without limitation, the execution of documents that may be required in the United States or any foreign country; and

(b) cooperation to the best of Assignor's ability in the execution of all lawful documents, the production of evidence, and in any nullification, reissue, extension, or infringement proceedings involving said Patents and Patent Applications and the inventions and improvements described therein, or any other invention and improvement identified in the preceding.

**IN WITNESS WHEREOF** this Agreement has been duly executed on March 27, 2018.

ARLINGTON SCIENTIFIC, INC.

By   
Ben Card
