ASSIGNMENT OF INVENTION

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, we, the undersigned, **Jonathon Daniel Horton and Alan Clarke** (each hereafter "Assignor") hereby assign, sell, and transfer to **ASR Holding Company**, a Rhode Island corporation, having a place of business at 72 Ferry Lane, Barrington, RI 02806, and its successors and assigns (the "Assignee"), his entire right, title and interest, in any invention or improvement that is disclosed in any of the following applications:

Country	Application No.	Filing Date	Title
US	13/755,918	01/31/2013	Method for Progressive Separation and Extraction of Raw Materials from Residential Roofing Products
US	14/191,046	02/26/2014	Method for Progressive Separation and Extraction of Raw Materials from Residential Roofing Products
US	14/881,079	10/12/2015	Method for Progressive Separation and Extraction of Raw Materials from Residential Roofing Products

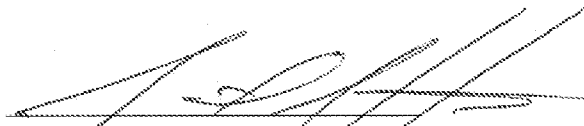

and in and to any of the above-identified patent applications and any patent applications to which they claim priority, and any and all other applications, whether in the United States or another country or international or regional patent office, which may be filed or may have been filed, either solely or jointly with others, on said invention or improvements, and in any and all utility patents, utility models, design patents, design registrations, inventors' certificates and like rights of exclusion, whether in the United States or other countries or international or regional patent offices, which may be granted on any of said applications, including any right to claim priority based on the filing date of any of said applications under any law of any country, or under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes.

Assignor hereby authorizes the Assignee to apply in any country or international or regional patent office, in the name of the Assignor or the Assignee, for utility patents, utility models, design patents, design registrations, inventors' certificates, and like rights of exclusion for said inventions and improvements.

Assignor hereby warrants that he or she is the owner of the right, title and interest assigned under this Assignment of Invention, and that he or she has the right to assign said right, title and interest, and that there are no outstanding prior assignments or licenses of, or other encumbrances on, said right, title and interest.

Assignor hereby agrees, without further compensation, to execute documents as the Assignee may reasonably request either to effectuate fully this Assignment of Invention or to exercise fully its rights under this Assignment of Invention, and to otherwise cooperate with the Assignee in performing any other acts necessary to obtain, maintain and enforce said rights.

IN WITNESS WHEREOF, said Assignor has hereunto set its hand and seal.
