ASSIGNMENT OF INVENTION

WHEREAS, George Mason Research Foundation, Inc. of Fairfax, Virginia, is the owner of a new and useful invention entitled "Label Switched Packet Transfer for Wireless Cellular Networks"

for which the United States Provisional Patent Application entitled, "Label Switched Packet Transfer for Wireless Cellular Networks" Provisional Patent Application Number 60/234,167 was filed September 20, 2000;  
and for which the United States Utility Patent Application entitled "Label Switched Packet Transfer Device," Application Number 13/167,295 was filed June 23, 2011,  
and for which the United States Letter Patent entitled, "Label Switched Packet Transfer Device," US Patent No. 9,515,915 was issued on December 6, 2016,

WHEREAS, the Assignor has determined that it no longer wishes to maintain Patent No. 9,515,915 entitled, "Label Switched Packet Transfer Device",

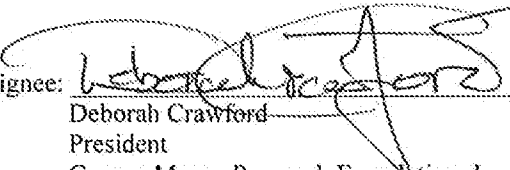

Whereas, the named inventors on the patent above identified, Bijan Jabbari, Esmael Dinan and Rajiv Papneja, hereinafter called the "Assignees", are desirous of acquiring the entire right, title and interest in and to said invention, the application and Letter Patent above identified, including any provisionals, continuations, divisionals, continuations-in-part, and any applications claiming benefit to said applications, and in, to and under any Letters Patent which may be granted thereof, including all reissues, reexaminations, and extensions thereof.

NOW, THEREFORE, in consideration of good and valuable and legally sufficient consideration, the receipt of which by said Assignor from the said Assignees is hereby acknowledged,

Said Assignor has sold, assigned and transferred, and by these presents do sell, assign and transfer unto the said Assignees, the entire, right, title and interest for the United States in and to the invention, application, and Letter Patent hereinabove identified, including any provisionals, continuations, divisionals, continuations-in-part, and any applications claiming benefit to said applications, and any Letters Patent of the United States that may issue for said invention, together with the entire right, title and interest in and to said invention and applications for Patent and Patent therefore, in all countries foreign to the United States, including the full right to claim for any such application and Patent all benefits and priority rights under any applicable convention; to have and to hold for the sole and exclusive use and benefit of the said Assignees, its successors and assigns, to the full end of the term or terms for which any and all of said Letters Patent for said inventions may issue; Said Assignor does hereby covenant and agree, for itself and its legal representatives, that it will reasonably assist the said Assignees in the prosecution of the application herein identified; in the making and prosecution of any other applications for Letters Patent that the said Assignees may elect to make covering the invention herein identified, as hereinabove set forth; in vesting in the said Assignees like exclusive title in and to all such other applications and Patent; and in the prosecution of any interference which may arise involving said invention, or any application or Patent herein contemplated; and that it will execute and deliver to the said Assignees any and all additional papers which may be requested by the said Assignees to fully carry out the terms of this Assignment; and The Commissioner of Patents and Trademarks is hereby authorized and requested to issue Letters Patent to the said Assignees in accordance with the terms of this Assignment.

IN TESTIMONY WHEREOF, the said Assignor and Assignees have hereunto set his hands and affixed his seal.
