## ASSIGNMENT OF PATENT

THIS ASSIGNMENT OF PATENT (U.S.) (this "Agreement") is made as of April \_\_/\_\_, 2018 by **James N. Kerr**, of Old Orchard Beach, Maine (the "Assignor"), to **Steril-IV, LLC**, a Maine limited liability company with offices in Scarborough, Cumberland County, Maine (the "Assignee").

### RECITALS

WHEREAS The Assignor is the inventor and owner of certain new and useful improvements relating to a device for the sanitizing of the surfaces of objects using ultraviolet light, the invention being described in U.S. Patent No. 9,265,849 entitled "Sanitizing Apparatus" (issued February 23, 2016) and any reexamination certificate, reissue, substitution, renewal, extension addition, utility model, or other patent, foreign or U.S., which has issued or may issue from any continuation, continuation-in-part or divisional application, that relies in whole or in part upon such patent for a U.S. or foreign priority date (hereinafter the "Patent"); and

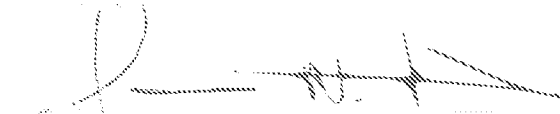

WHEREAS the Assignee desires to acquire the Patent and the registration thereof for the development and exploitation of one or more devices using such improvements.

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, the Assignor does hereby assign, sell and transfer unto the Assignee all right, title and interest in and to the Patent, together with (a) the registrations of the Patent, and (b) the right to sue and recover for, and the right to profits or damages due or accrued arising out of or in connection with, any and all past, present or future infringements or dilution of or damage or injury to the Patent or the registration thereof.

This Assignment is intended to and shall take effect as a sealed instrument at such time as the Assignee shall complete this instrument by signing its acceptance of this Assignment below.

[Signatures on the following page]

IN WITNESS WHEREOF, the Assignor, by its duly authorized officer, has executed this assignment, as an instrument under seal, as of April 11, 2018.
