ASSIGNMENT

WHEREAS, George Frederick Rautenbach, hereinafter called the "Assignor", made the invention described in South African Application No. 2013/08223 filed October 23, 2013; PCT-Application No. PCT/IB2014/002193 filed October 22, 2014, and United States patent application titled Heap Leaching of Copper filed on April 20, 2016 and assigned Application No. 15/030,813;

WHEREAS, BHP Chile Inc., a corporation organized and existing under the laws of Chile, having a place of business at Vespucio Sur 100, Piso 8, 8340648, Santiago, Chile, hereinafter called the "Assignee", desires to acquire the entire right, title and interest in and to the invention and the patent applications identified above, and all patents which may be obtained for the invention, as set forth below;

NOW, THEREFORE, be it known that for good, valuable, and legally sufficient consideration, the receipt of which by the Assignor from the Assignee is hereby acknowledged, the Assignor has sold, assigned and transferred, and by these presents does sell, assign and transfer to the Assignee, the entire right, title and interest for the United States in and to the invention and the patent applications identified above, and any patents that may issue for said invention in the United States; together with the entire right, title and interest in and to said invention and all patent applications and patents issuing therefrom in all countries foreign to the United States, including the full right to claim for any such application all benefits and priority rights under any applicable convention; together with the entire right, title and interest in and to all continuations, divisions, renewals and extensions of any of the patent applications and patents defined above; together with the right to recover all damages, including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application rights; to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents.

The Assignor hereby covenants and agrees, for both the Assignor's and the Assignor's legal representatives, that the Assignor will assist the Assignee in the
