ASSIGNMENT

WHEREAS, Orckit IP, LLC, 831 Beacon Street, Newton, MA 02459 ("Assignor") owns the entire, exclusive right, title, and interest in U.S. Patent No. 6,680,904, entitled "Bi-directional chaining of network access ports" (the "Patents"); and

WHEREAS, Blackbird Tech LLC d/b/a Blackbird Technologies, One Boston Place, Suite 2600, Boston, MA 02108 ("Assignee") desires to acquire all of Assignor's right, title, and interest in and to the Patents;

NOW THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, Assignor hereby transfers and assigns all right, title, and interest in and to the Patents to Assignee, including, without limitation, all rights to sue for past, present, and future acts of infringement of the Patents, to make, use, offer to sell, or sell any invention under the Patents within the United States or import into the United States any invention under the Patents, to prosecute all existing Patents and have any resulting patents issue in the name of Assignee, and to file additional applications based on the Patents and have any resulting patents issue in the name of Assignee.

Assignor authorizes and requests the Commissioner of Patents and Trademarks to record Assignee as owner of the Patents.

This Assignment may be executed in any number of counterparts and by the separate parties on separate counterparts, each of which when executed and delivered shall constitute an original, and all such counterparts together shall constitute but one and the same Assignment.

Assignor and Assignee hereby authorize the following individuals the power to correct errors in this Assignment, or to insert any further identification or other information necessary or desirable to make this Assignment suitable for recordation in the United States Patent and Trademark Office.

Wendy Verlander

IN WITNESS WHEREOF, the Assignor and Assignee have caused this Assignment to be executed by themselves or their officers duly authorized on their behalf on the date set forth below:
