ASSIGNMENT OF PATENT APPLICATION

Whereas I/We the undersigned inventor(s) have invented certain new and useful improvements as set forth in the patent application entitled:

System for 3D Clothing Model Creation

(Application No. 15/436,481, Attorney Docket No.: 9.00001) for which I/We have executed an application for a United States Letters Patent.

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I/We the undersigned inventor(s) hereby:

- 1) Sell, assign and transfer to **Ohzone, Inc.**, a **California corporation** having a place of business at **3100 Orthello Way, Santa Clara, California, United States** (hereinafter referred to as "ASSIGNEE"), the entire right title and interest in any and all inventions and disclosed in, application(s) based upon, and Patent(s) (including foreign patents) granted upon the information which is disclosed in the above referenced application.
- 2) Authorize and request the Commissioner of Patents to issue any and all Letters Patents resulting from said application or any division(s), continuation(s), substitute(s) or reissue(s) thereof to the ASSIGNEE.
- 3) Agree to execute all papers and documents and, entirely at the ASSIGNEE's expense, perform any acts which are reasonably necessary in connection with the prosecution of said application, as well as any derivative applications thereof, foreign applications based thereon, and/or the enforcement of patents resulting from such applications.
- 4) Agree that the terms, covenants and conditions of this assignment shall inure to the benefit of the ASSIGNEE, its successors, assigns and other legal representatives, and shall be binding upon the inventor(s), as well as the inventor's heirs, legal representatives and assigns.
- 5) Warrant and represent that we have not entered, and will not enter into any assignment, contract, or understanding that conflicts with this assignment.
- 6) Declare:
 - a) All inventions disclosed in the instant patent application were conceived and reduced to practice in whole during the course of my/our responsibilities at ASSIGNEE.
 - b) No more than incidental use of resources was used in the conception or reduction to practice of any improvements and inventions disclosed in the instant patent application other than resources of ASSIGNEE.
 - c) No part of the conception or reduction to practice of any improvement or invention disclosed in the instant patent application was based upon work performed for any entity (including Universities) other than ASSIGNEE.

d) Assigning all improvements and inventions disclosed in the instant patent application to ASSIGNEE is not in conflict with any previously existing contractual obligation with any entity (including Universities) other than ASSIGNEE.

e) No information defined as confidential or proprietary by any entity (including Universities) other than ASSIGNEE was used in the conception or reduction to practice of any improvement or invention disclosed in the instant patent application.

7) Agree that this assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement.
