WHEREAS, I, **LARRY MITCHELL GRELA**, whose address is 12926 Northland Drive, Plainfield, Illinois 60585 (hereinafter referred to as "Assignor") has invented new and useful designs which are collectively entitled:

"TOOL RECEPTACLE"

and which is set forth in Schedule A, attached hereto and incorporated herein by this reference (hereinafter referred to as "**The Patent**").

WHEREAS, **EXTREME TOOLS, INC.** having a place of business located at 740 Frontenac Road, Naperville, Illinois 60563 and a registered address of 12926 Northland Drive, Plainfield, Illinois 60585 (hereinafter referred to as "Assignee") is desirous of acquiring the entire right, title, and interest in and to the designs and in and to The Patent.

NOW THEREFORE, for good and valuable consideration as set forth herein, the receipt and sufficiency of which is hereby acknowledged, the Parties confirm as follows:

1. On August 10, 2009 (hereinafter referred to as "The Effective Date"), for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor irrevocably assigned, sold, transferred, conveyed, delivered and set over, unto Assignee the entire right, title and interest in and to the designs and in and to The Patent, including any foreign counterparts, patents or patent applications to which The Patent claims priority, divisionals, continuations in whole or in part, reexaminations, reissues or extensions thereof, and the right to claim priority to any of the preceding, the same to be held by Assignee for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns and other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment and sale had not been made; together with all claims for damages by reason of

past infringements of the Patent and the right to sue for and collect any and all damages arising from any infringement of The Patent, including but not limited to those infringement damages accruing on or before The Effective Date and from the Effective Date through and after the signing of this confirmatory assignment, as permitted under the applicable laws for any jurisdiction or country in which such claims may be asserted, for the use and benefit of Assignee and its successors, assigns and other legal representatives. As of The Effective Date, The Assignee has held The Patent and the designs as fully and exclusively as The Assignor would have held The Patent and the designs had the assignment not been made.

2. Assignor hereby constitutes and appoints Assignee as Assignor's true and lawful attorney in fact, with full power of substitution in Assignor's name and stead, to take any and all steps, including proceedings at law, in equity or otherwise, to execute, acknowledge and deliver any and all instruments and assurances necessary or expedient in order to vest or perfect the aforesaid rights and causes of action more effectively in Assignee or to protect the same or to enforce any claim or right of any kind with respect thereto. Assignor hereby declares that the foregoing power is coupled with an interest and as such is irrevocable.

3. If any provision of this Assignment shall be adjudged by any court of competent jurisdiction to be unenforceable or invalid, that provision shall be limited or eliminated to the minimum extent necessary so that this Assignment shall otherwise remain in full force and effect and enforceable.

4. Assignor hereby covenants that it had full right to convey the entire interest herein assigned, and that it has not executed, and will not execute, any agreements inconsistent herewith.
