**ASSIGNMENT**

This Assignment of Patent Rights is entered into as of the 22nd day of December, 2009, by and between Keystone Technology Solutions, LLC, a Delaware limited liability company and wholly owned subsidiary of Assignee, with offices at 8000 South Federal Way, Boise, ID 83707 ("Assignor"), and Micron Technology, Inc., a Delaware corporation with same office location ("Assignee").

"The Patents" are the patents and patent applications identified in the attached Schedule A, including, without limitation, all parents, divisionals, continuations, continuations-in-part, reissues, and reexaminations thereof and all pending applications therefor, and all foreign counterparts thereof and all pending applications therefor, and any patents resulting therefrom.

**Covenants**

Assignor, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, hereby sells, assigns, and transfers to Assignee its entire right, title and interest in and to The Patents.

Assignor hereby sells, assigns, and transfers to Assignee all claims for damages and all remedies arising out of any violation of the rights assigned hereby that may have accrued prior to the date of this Assignment, or may accrue hereafter, including, but not limited to, the right to bring suit and to collect and retain damages for past infringement of The Patents.

Assignor warrants and covenants that it has full right, title and interest to The Patents, full right and authority to make this Assignment, and has not and will not enter into any contract or agreement which conflicts with this Assignment.

Assignor hereby authorizes and requests the Commissioner of Patents of the United States, and any other official of the United States and any country foreign to the United States whose duty it is to issue or record patents, to issue The Patents to Assignee and to record assignment of The Patents to Assignee.

Assignor hereby covenants and agrees that it will communicate to Assignee any facts known to Assignor respecting The Patents immediately upon becoming aware of those facts, and that it will testify in any legal proceeding involving any of The Patents, will sign all lawful papers, will make all rightful oaths, and will generally do everything possible to aid Assignee to obtain and enforce The Patents in all countries.

This Assignment shall be binding on the heirs, assigns, representatives, and successors of Assignor and shall extend to and inure to the benefit of the successors and assigns of the Assignee.

Agreed to by:  
Keystone Technology Solutions, LLC

Signed:   
Joel L. Poppen
