GRANT OF A SECURITY INTEREST – PATENTS

This Patent Security Agreement (this “Patent Security Agreement”) is made as of August 30, 2017, by Best Lighting Products, Inc. (“Grantor”), in favor of BMO HARRIS BANK N.A., in its capacity as Administrative Agent for itself and the other Lender Parties (together with its successors and assigns in such capacity, “Grantee”). All capitalized terms used but not otherwise defined herein have the meanings given to them in the Security Agreement (defined below).

WHEREAS, the Grantor holds all right, title and interest in the letter patents, design patents and utility patents listed on the attached Schedule A, which patents are issued or applied for in the United States Patent and Trademark Office (the “Patents”);

WHEREAS, the Grantor has entered into a Pledge and Security Agreement, dated as of August 30, 2017 (as amended, restated, supplemented, modified or otherwise changed from time to time, the “Security Agreement”), in favor of Grantee; and

WHEREAS, pursuant to the Security Agreement, the Grantor has granted to the Grantee for the benefit of the Lender Parties (as defined in the Security Agreement), a continuing security interest in all right, title and interest of the Grantor in, to and under the Patents and the applications and registrations thereof, and all proceeds thereof (the “Collateral”), to secure the payment, performance and observance of the Secured Obligations (as defined in the Security Agreement).

NOW, THEREFORE, as collateral security for the payment, performance and observance of all of the Secured Obligations, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor does hereby grant to the Grantee and grant to the Grantee for the benefit of the Lender Parties, a continuing security interest in the Collateral to secure the prompt payment, performance and observance of the Secured Obligations.

The Grantor does hereby further acknowledge and affirm that the rights and remedies of the Grantee with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein.

The Grantor hereby authorizes Grantee unilaterally to modify this Patent Security Agreement by amending Schedule A to include any future United States Patent of the Grantor. Notwithstanding the foregoing, no failure to so modify this Patent Security Agreement or amend Schedule A shall in any way affect, invalidate or detract from Grantee’s continuing security interest in all Collateral, whether or not listed on Schedule A.

This Patent Security Agreement may be executed in any number of counterparts and by different parties in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart by facsimile or electronic mail shall be equally effective as delivery of an original executed counterpart.
