ASSIGNMENT AND ASSUMPTION AGREEMENT

THIS ASSIGNMENT AND ASSUMPTION AGREEMENT (this "Agreement"), having an Effective Date of September 28, 2012, is made between Mindframe LLC, a Delaware limited liability company, having a principal place of business at 12 Goodyear, Suite 125, Irvine, CA 92618 ("Assignor"), and Covidien LP, a Delaware limited partnership and the sole member of Assignor, having a principal place of business at 15 Hampshire Street, Mansfield, Massachusetts 02048 ("Assignee");

WHEREAS, by Action of a Certificate of Conversion dated September 26, 2012, Pursuant to Sections 103 and 266 of the General Corporation Law of the State of Delaware and Sections 18-204 and 18-214 of the Delaware Limited Liability Company Act, Mindframe, Inc. was converted into Assignor;

WHEREAS, Assignor is the sole and exclusive owner of all right, title and interest in and to the Patents and Patent Applications as listed on Schedule A, attached hereto and incorporated herein (collectively the "Assigned IP"), subject to any license agreements that affect the Assigned IP but do not convey title thereto;

WHEREAS, Assignor is the sole and exclusive owner of all right, title and interest in and to certain intellectual property not covered in Schedule A (the "Intangible Assets"), subject to any license agreements that affect the Intangible Assets but do not convey title thereto;

WHEREAS, Assignee is the sole member, and owner of all the outstanding limited liability company interests, of Assignor;

WHEREAS, by Omnibus Action By Unanimous Written Consent of Assignee dated September 25, 2012, as the sole member of Assignor (the "Sole Member Consent"), Assignee authorized and approved a Plan of Merger providing for (i) the merger of Assignor into Assignee, (ii) the dissolution of Assignor, leaving Assignee as the surviving entity, (iii) the vesting of all assets and property of Assignor in Assignee, (iv) the assumption of all liabilities and obligations of Assignor by Assignee, and (v) the execution of this Agreement whereby Assignor is assigning to Assignee certain IP assets of Assignor and Assignee is assuming the corresponding IP liabilities of Assignor; and

WHEREAS, Assignor desires to assign and transfer to Assignee, Assignor's entire right, title and interest in the Assigned IP and the Intangible Assets, and Assignee is desirous of acquiring the same.

NOW THEREFORE, in consideration of the foregoing and of the mutual covenants and agreements set forth herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Definitions. As used in this Agreement, the following terms have the meanings set forth, or incorporated by reference, in this Agreement:

"Agreement" is defined in the introductory paragraph.

"Effective Date" is defined in the introductory paragraph.

"Intangible Assets" means all of the following, to the extent not included in the Assigned IP: any and all technologies and procedures, processes, designs, inventions, discoveries, know-how, show-how, works of authorship, copyrights, mask works, Moral Rights, software, trade secrets, confidential information, and all other intangible assets currently used exclusively or owned by Assignor.

"Moral Rights" means any right to claim authorship of a work, any right to object to any distortion or other modification of a work, any right to object to the association of a work with any product, cause, service or institution, and any similar right, existing under the law of any country in the world, or under any treaty.

The words "hereof", "herein" and "hereunder" and words of similar import when used in this Agreement refer to this Agreement as a whole and not to any particular provision of this Agreement, and section, subsection, schedule and exhibit references are to this Agreement unless otherwise specified.

The words "include" or "including" when used in this Agreement are deemed to be followed by the words "but not be limited to" or "but not limited to," respectively.

2. Representations and Warranties. Assignor represents and warrants that:

(i) Assignor owns the entire right, title and interest in and to the Assigned IP and Intangible Assets, subject to any license agreements that affect the Assigned IP or Intangible Assets but do not convey title thereto;

(ii) all such Assigned IP and Intangible Assets are free and clear of restrictions on or conditions to transfer or assignment, and are free and clear of mortgages, liens, pledges, charges, encumbrances, equities, or claims of any kind or manner;

(iii) there are no actions, suits, proceedings, arbitrations, investigations or claims pending or, to the knowledge of the Assignor after due inquiry, threatened against or affecting the Assignor in connection with the Assigned IP and Intangible Assets;

(iv) Assignor has all authority necessary to enter into this Agreement and the execution and delivery of this Agreement has been duly and validly authorized; and

(v) execution of this Agreement and performance of Assignor's obligations hereunder shall not violate or conflict with any other agreement to which Assignor is a party, or any provision of Assignor's Certificate of Incorporation or By-laws.

3. Assignment. Now, therefore, for the herein-recited consideration and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged:

(i) Assignor does hereby assign, sell and transfer to Assignee, and to the successors and assigns of Assignee, Assignor's whole and entire right, title and interest in and to the Assigned IP, including:

- A. any applications, continuations, continuations-in-part, divisions, renewals, reissues and extensions of the Assigned IP and any foreign counterparts and applications based on any of the foregoing;
- B. all rights of priority related to the Assigned IP and conferred by any applicable statute, treaty or convention;
- C. the right to sue (and collect damages) for all present, past and future infringement of the Assigned IP, in the United States, its territorial possessions, and in all foreign countries; and
- D. all inventions disclosed in the Assigned IP.

(ii) Assignor does further hereby assign, sell and transfer to Assignee, and to the successors and assigns of Assignee, Assignor's whole and entire right, title, and interest in and to the Intangible Assets in the United States and all jurisdictions outside the United States.

(iii) Assignor does further consent to the recordation of this Assignment by Assignee with the United States Commissioner of Patents or any similar foreign governmental agency to record the transfer of the Assigned IP set forth on Schedule A to Assignee as assignee of Assignor's entire right, title and interest therein. Assignor does further authorize the United States Commissioner of Patents and other empowered officials of the United States Patent and Trademark Office and in any applicable jurisdictions outside the United States to record the transfer of the Assigned IP set forth on Schedule A to Assignee as assignee of Assignor's entire right, title and interest therein.

(iv) Assignor agrees to further execute any documents reasonably necessary to effect this assignment or to confirm Assignee's ownership of the Assigned IP and Intangible Assets.

4. Acceptance and Assumption. Assignee hereby accepts such sale, transfer, conveyance, assignment and delivery of Assignor's right, title and interest in the Assigned IP and the Intangible Assets, and agrees to assume, pay, perform and discharge and indemnify and hold Assignor harmless against all corresponding debts, obligations, liabilities, and contracts of Assignor, whether known or unknown, accrued, absolute, contingent or otherwise (the "Assumed Liabilities").

5. Relationship with Plan of Merger. This Agreement is intended to evidence the consummation of the transactions contemplated by the Plan of Merger. This Agreement is in all respects subject to the provisions of the Plan of Merger and is not intended in any way to supersede, limit or qualify any provisions of the Plan of Merger.

6. Effective Time. The assignment by Assignor to Assignee of the Assigned IP and the Intangible Assets, and the acceptance of the Assumed Liabilities by Assignee, all pursuant to this Agreement, shall be effective as of the Effective Date.

7. Governing Law. This Agreement shall be governed by the laws of the State of Delaware, without regard to the principles of conflicts of law thereof.

8. Counterparts. This Agreement may be executed in counterparts (including by facsimile), each of which shall be deemed an original, but which together shall constitute one and the same instrument.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed as of the Effective Date.
