## ASSIGNMENT

WHEREAS, we, Hector T. Hoyos and Keith J. Hanna ("Assignors"), citizens of the United States of America, residing in New York and New Jersey, respectively, have invented certain new and useful inventions entitled "Compact Biometric Acquisition System and Method," for which an application for Letters Patent of the PTC, Application Number PCT/USO7/79160, was filed on September 21, 2007; and

WHEREAS, Global Rainmakers Inc. ("Assignee"), a corporation duly organized under the laws of the Commonwealth of Puerto Rico, and having its offices and place of business at 10 East 53<sup>rd</sup> Street - 33<sup>rd</sup> Floor, New York, New York 10022, is desirous of acquiring the entire right, title and interest in and to the aforesaid invention and in and to all applications and Letters Patent therefor granted in the United States of America, and in any and all countries foreign thereto.

NOW, THEREFORE, TO WHOM IT MAY CONCERN, be it known that, for and in consideration of the terms and conditions set forth in the Assignors' Stock Purchase Agreements with the said Assignee, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, We said Assignors, by these presents do sell, assign and transfer, and agree to sell, assign and transfer, unto said Assignee, its successors, assigns and legal representatives, the full and exclusive right, title and interest for the territory of the United States of America and all countries foreign thereto, and throughout the world and in space, (including the right to apply for Letters Patent in foreign countries in its own name and to claim any priority rights for such foreign applications to which such applications are entitled under international conventions, treaties, or otherwise), in and to said inventions and in and to all applications and Letters Patent granted therefor, and all divisions, reissues, re-examinations, continuations (including, for example, continuations-in-part), and extensions thereof, and in and to all copyrights, trademarks with their associated goodwill, trade secrets, confidential information, and compilations, necessary or useful to make, use, import, or sell the inventions. I hereby authorize and request the Commissioner of Patents, and any official whose duty it is to issue patents, to issue all Letters Patent on said inventions or resulting therefrom to said Assignee, or its successors and assigns, as assignee of the entire right, title and interest. We represent and warrant that we have full right to agree to, execute, and deliver this assignment. We agree that we will without further consideration, but at the expense of Assignee, communicate to said Assignee, or its successors, assigns, or nominees, any and all facts known to me regarding said inventions whenever requested, and that we will execute all divisional, reissue, re-examination, continuation, and continuation-in-part applications, testify in any legal proceedings, sign all lawful papers, make all rightful oaths, and generally do everything reasonable for said Assignee, its successors, assigns, and nominees, to obtain and enforce proper patent protection for said inventions in all countries.

IN WITNESS WHEREOF, I have hereunto set my hand and seal this 21<sup>st</sup> day of September, 2007.
