ASSIGNMENT OF PATENTS

This Assignment of Patents, dated as of December 30, 2013 (this "Patent Assignment"), is made by and between PHILLIPS 66 COMPANY, a Delaware corporation ("Assignor"), and PHILLIPS SPECIALTY PRODUCTS INC., a Delaware corporation ("Assignee").

WITNESSETH:

WHEREAS, Assignee is a party to that certain Exchange Agreement, dated as of December 30, 2013 (the "Exchange Agreement"), by and among Berkshire Hathaway Inc., a Delaware corporation ("Berkshire Hathaway"), National Indemnity Company, a Nebraska corporation, Government Employees Insurance Company, a Maryland corporation, National Fire & Marine Insurance Company, a Nebraska corporation, GEICO Corporation, a Delaware corporation, each a wholly owned subsidiary of Berkshire Hathaway, Phillips 66, a Delaware corporation and the sole shareholder of Assignor ("Phillips 66"), Assignor, and Assignee;

WHEREAS, Assignor and Assignee are party to that certain Intellectual Property Assignment Agreement, dated as of December 30, 2013 (the "IP Assignment Agreement");

WHEREAS, pursuant to the IP Assignment Agreement, Assignor is assigning all of its right, title and interest in, to and under the Intellectual Property Assets to Assignee (the "Assignment"), including the issued patents and patent applications set forth on Schedule 1 hereto (collectively, the "Patents");

WHEREAS, the Assignment is subject to, and consistent with, certain rights granted by Phillips 66 to ConocoPhillips under that certain Intellectual Property Assignment and License Agreement, dated as of April 26, 2012, by and between ConocoPhillips and Phillips 66 (the "License Agreement"); and

WHEREAS, pursuant to the Exchange Agreement, Phillips 66 has agreed to use commercially reasonable efforts to terminate the rights granted to ConocoPhillips under the License Agreement related to the Intellectual Property Assets, as provided in Section 6.16 of the Exchange Agreement.

NOW, THEREFORE, in consideration of the mutual covenants set forth herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Defined Terms. Capitalized terms used but not defined herein shall have the meanings given to such terms in the Exchange Agreement.

2. Transfer. Assignor hereby assigns, transfers and grants to Assignee, and Assignee hereby accepts such assignment, transfer, and grant of, all of Assignor's right, title and undivided interest in, to and under the following:

(a) the Patents and any patents that may issue from such Patents, and any foreign counterparts or equivalents thereto, and any divisions, continuations, continuations-in-

part, reexaminations, renewals and reissues of such Patents, including the right to claim priority (collectively, the "Patents and Patent Derivatives"), the same to be held and enjoyed by the Assignee for its own use and benefit, and for the use and benefit of its successors or assigns, to the end of the term or terms for which said Patents are or may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment had not been made;

(b) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to the Patents and Patent Derivatives; and

(c) any and all past, present, and future claims with respect to the Patents and Patent Derivatives, including all rights to any legal, equitable, and administrative remedies resulting from such claims.

3. Recordation. Assignor hereby authorizes and requests the Commissioner of Patents at the United States Patent and Trademark Office, and any foreign patent authorities (where permissible under Law), to record this Patent Assignment. The parties to this Patent Assignment shall cooperate to facilitate the recording of all documents of transfer or assignment relating to the assignment of the Patents hereunder in accordance with Section 6.11(c) of the Exchange Agreement.

4. Effective Time of Transfer. This Assignment shall be effective immediately prior to the Internal Distribution.

5. Effect on License Agreement. Assignor and Assignee acknowledge and agree that nothing in this Patent Assignment shall change, alter, limit or reduce any rights granted to ConocoPhillips under the License Agreement, and Assignee accepts the assignment of the Patents hereunder subject to the License Agreement.

6. Effect on IP Assignment Agreement. Assignor and Assignee acknowledge and agree that nothing in this Patent Assignment shall change, alter, limit or reduce any rights granted to Assignee under the IP Assignment Agreement.

7. Notices. All notices, requests and other communications to either party hereto shall be in writing (including facsimile transmission) and shall be given:

If to Assignor, to:

Phillips 66 Company
3010 Briarpark Drive, 8th Floor
Houston, Texas 77042
Attention: Chief IP Counsel
Facsimile: 832-765-0109

If to Assignee, to:

Phillips Specialty Products Inc.
3010 Briarpark Drive, 8th Floor

Houston, Texas 77042
Attention: Michael W. Brown
Facsimile: 832-765-0311

or to such other address or facsimile number as such party may hereafter specify for the purpose by notice to the other party.

8. Captions and Headings. The captions herein are included for convenience of reference only and shall be ignored in the construction or interpretation hereof.

9. Successors and Assigns. This Patent Assignment shall be binding upon, inure to the benefit of and be enforceable by the parties hereto and their respective successors and assigns.

10. Counterparts. This Patent Assignment may be executed in two or more counterparts, all of which shall be considered the same agreement. Signature pages from separate identical counterparts may be combined with the same effect as if the parties signing such signature page had signed the same counterpart. Subject to Section 4 hereof, this Patent Assignment shall become effective when each party hereto shall have received counterparts hereof signed by all of the other parties hereto.

11. Governing Law. This Patent Assignment shall be governed by, and construed in accordance with, the Laws of the State of Delaware applicable to agreements made and to be performed entirely within such State, without regard to the conflicts of law principles of such State.

[THIS SPACE INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF, the parties hereto have executed this Patent Assignment on the date first above written.
