ASSIGNMENT FOR PATENTS, INDUSTRIAL MODEL AND DESIGN

Be it known that I/we, the undersigned, as inventor(s) of the subject matter contained in the patent/utility model/design application entitled:

"Ultrasound Simulation Methods"

as filed in the PCT application N° PCT/EP2016/074707 on October 14, 2016 by claiming priority N° US 62/242,322 dated October 16, 2015.

(the "Invention").

do hereby state that, according to my working contract, or an assignment between the inventor and the recipient, any and all rights arising from the Invention specified herein lawfully belong to the below named Recipient, and to the extent not previously done so by any prior assignment by me/us or operation of law. I/we do hereby confirm that I/we have assign and transfer, to the below mentioned Recipient as of the filing date of the Invention for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the full and exclusive worldwide right, title and interest in and to the Invention, including the right to claim priority, to sue and collect for past, present and future infringement, unto, :

VIRTAMED AG

Rütistrasse 12

8952 Schlieren

(so-called « The Recipient »)

And its successors and assigns.

I/we further state and declare that the Recipient is fully entitled to: (a) make the patent/utility model/design application in its own name as from the time of its filing; and (b) use, make profit, assign or dispose of the Invention without necessity of any ratification, consent, endorsement on my/our part.

All of the above is true notwithstanding the insertion of my/our name(s) in any document related to such Invention; provided, however, that without any prejudice to the statements made herein, I/we, the inventor(s), wish to be mentioned and identified as the inventor(s) in any corresponding patent/utility model/design registration(s).

This assignment takes effect from the conception date of the Invention according to agreements in force prior that date between the inventors and the Recipient.
