WHEREAS Wisconsin Plastics, a Wisconsin Corporation having a place of business at 3155 Commodity Lane, Green Bay, Wisconsin 54304 (hereinafter referred to as "Assignor"), is an owner and assignee of a right, title and interest in and to the following United States non-provisional patent application entitled **DISPENSER ASSEMBLY** and assigned Serial No. **15/088,984** filed on **April 1, 2016**, which claims priority to Provisional Patent Application assigned Serial No. **62/144,194** filed on **April 7, 2015**, (hereinafter referred to as "said United States applications"), and the inventions disclosed therein (hereinafter referred to as "said inventions");

AND, WHEREAS, Vi-Jon, Inc., a Tennessee Corporation and having a principal address at 8800 Page Avenue, St. Louis, Missouri 63114 (hereinafter referred to as "ASSIGNEE"), is desirous of acquiring certain rights, title, and interest of Assignor in said United States applications and said inventions;

NOW, THEREFORE, for good and valuable consideration, receipt of all of which is hereby acknowledged, Assignor has agreed to and does hereby sell, assign and transfer unto said ASSIGNEE the entire right, title and interest in and throughout the United States of America (including its territories and dependencies) and all countries foreign thereto in and to said invention, said United States application, any other United States applications (including provisional, non-provisional, divisional, continuing, or reissue applications) based in whole or in part on said United States application or in whole or in part on said invention, any foreign applications based in whole or in part on any of the aforesaid United States applications or in whole or in part on said invention, and any and all patents (including extensions thereof) of any country which have been or may be granted on any of the aforesaid applications or on said invention or any part thereof;

AND Assignor hereby covenants for itself and its respective legal representatives that it has granted no right or license to make, use or sell said invention, to anyone except said ASSIGNEE, that prior to the execution of this deed our right, title and interest in said invention had not been otherwise encumbered, and that we have not executed and will not execute any instrument in conflict herewith.
