Kopecky, an individual and resident of Owasso, Oklahoma and Thomas John Gottschalk, an individual and resident of Houston, Texas, (collectively, the “*Assignors*,” and each individually an “*Assignor*”) have made a certain new and useful invention as set forth in an application for United States Patent, entitled “FLUID MOVING APPARATUS AND SYSTEM FOR AN ELECTRIC SUBMERSIBLE GAS SEPARATOR,” filed on July 12, 2017 with the United States Patent and Trademark Office and having a Serial No. of 62/531,689 and an attorney docket number of 8407.125;

WHEREAS, Summit ESP, LLC, an Oklahoma limited liability company having an address of 835 West 41st Street South, Tulsa, OK 74107 (the “*Assignee*”), desires to acquire the entire right, title and interest in and to said invention and in and to any and all Letters of Patent of the United States and foreign countries which may be obtained therefor;

NOW THEREFORE, for \$10.00 and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

Effective July 11, 2017, Assignors do hereby sell, assign, transfer and set over unto Assignee, its legal representatives, successors, and assigns, the entire right, title and interest in and to said invention as set forth in the above-mentioned application, including but not limited to any provisionals, nonprovisionals, continuations, continuations-in-part, divisionals, reissues, reexaminations, substitutes, renewals, or improvements thereof, and in and to any and all patents of the United States and foreign countries which may be issued for said invention, including the right to sue and collect damages for infringement of those patents.

Assignors acknowledges the duty to disclose information which is material to the patentability of the invention as set forth in the above-mentioned application including but not limited to any nonprovisionals, continuations, continuations-in-part and divisionals thereof, as defined in 37 CFR § 1.56, including, for continuation-in-part applications, material information which became available between the filing date of the prior application and the filing date of the continuation-in-part application.

Assignors request that any and all patents for said inventions be issued to Assignee, its successors, assigns and legal representatives, or to such nominees as they may designate to the full end of the term for which said patents may be granted.

Assignors agree that, when requested, Assignors will in good faith, without charge to Assignee but at Assignee’s expense, sign all papers, take all rightful oaths, communicate to Assignee all known facts relating to any improvements and the history thereof, and do all acts which may be necessary, desirable or convenient for securing, maintaining and enforcing patents for said inventions in any and all countries and for vesting title thereto in Assignee, its successors, assigns, legal representatives or nominees. Without limiting the foregoing, in connection with this Assignment and the transactions contemplated hereby, Assignors will execute and deliver any additional documents and perform any additional acts that may be necessary or appropriate to

Assignors hereby consent that a copy of this Assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the Assignee or its nominees to claim the aforesaid benefit of the right of priority, including but not limited to that provided by any convention or treaty.
