For good and valuable consideration, the receipt of which is acknowledged by the Estate, the Estate hereby assigns and transfers to SPC, and SPC agrees and accepts, all of the Estate's right, title and interest in, to and under the Patents, together with all rights of priority and rights of action for infringement, in, to and under the Patents, including but are not limited to: (a) the right to make, have made, use, and sell under the Patents; (b) all past, present and future rights and privileges, legal, equitable and otherwise, including, to the extent permissible by law, rights and privileges related to the attorney-client relationship of Mark E.
