CONFIRMATORY ASSIGNMENT

WHEREAS, Michael Schwarz hereinafter called the "Assignor" and having a mailing address at Kiesweg 18, 33378 Rheda-Wiedenbrück Germany, has made the invention described in: (1) German Patent Application No. DE 102017120674.4 (the "German Application") filed September 7, 2017; and (2) a U.S. Patent Application entitled "Combine Harvester" associated with the attorney reference number listed above and claiming priority to the German Application;

WHEREAS, pursuant to an Employment Agreement having an effective date prior to September 7, 2017 and for valuable and legally sufficient consideration received prior to September 7, 2017, the receipt of which by the Assignor from the Assignee is hereby acknowledged, the Assignor did previously transfer, sell and assign to CLAAS Selbstfahrende Erntemaschinen GmbH, hereinafter called the "Assignee" and having a place of business at Mühlenwinkel 1, 332428 Harsewinkel Germany the entire right, title and interest for the United States in and to the invention and the patent applications identified above, and any patents that may issue for said invention in the United States; together with the entire right, title and interest in and to said invention and all patent applications and patents issuing therefrom in all countries foreign to the United States, including the full right to claim for any such application all benefits and priority rights under any applicable convention; together with the entire right, title and interest in and to all continuations, divisions, renewals and extensions of any of the patent applications and patents defined above; together with the right to recover all damages, including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application rights; to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents.

NOW, THEREFORE, and further in view of the aforementioned valuable and legally sufficient consideration, the Assignor does hereby confirm having made the above-referenced Assignment prior to September 7, 2017 and to the extent that such Employment Agreement is deemed insufficient to have effected such transfer, sale and assignment, does hereby transfer, sell and assign to Assignee, effective prior to September 7, 2017 the entire right, title and interest for the United States in and to the invention and the patent applications identified above, and any patents that may issue for said invention in the United States; together with the entire right, title and interest in and to said invention and all patent applications and patents issuing therefrom in all countries foreign to the United States, including the full right to claim for any such application all benefits and priority rights under any applicable convention; together with the entire right, title and interest in and to all continuations, divisions, renewals and extensions of any of the patent applications and patents defined above; together with the right to recover all damages, including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application rights; to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents.

IN TESTIMONY WHEREOF, the Assignor has executed this Confirmatory Assignment.
