PATENT ASSIGNMENT AGREEMENT

THIS PATENT ASSIGNMENT AGREEMENT ("Assignment") is made effective as of 7/24/2018 by and between Telepathy Labs GmbH, a Swiss limited liability company having its principal place of business Amthausgasse 6, Postfach, 3001 Bern, Switzerland, and Telepathy Labs Pte. Ltd. (UEN:201712774N), a limited liability company existing under the laws of Singapore, having its principal place of business at 2 Havelock Road #04-13, Singapore 059763 (collectively referred to hereinafter as "Assignors" and individually as "Assignor"), on the one hand, and Telepathy Labs, Inc., a Delaware corporation headquartered, with its principal place of business at 3001 North Rocky Point Drive East, Suite 200, Tampa, FL 33607, (hereinafter "Assignee"), on the other hand. Each of the above-named entities may be individually referred to herein as a "Party" and collectively referred to as "Parties".

WHEREAS, Assignors and Assignee own joint rights in the Patent Applications listed on attached Schedule 1 the ("Assigned Patent Applications"), which joint rights collectively comprise all rights in the Assigned Patent Applications; and

WHEREAS, Assignors and Assignee desire to receive from Assignors assignments to the Assigned Patent Applications so that all rights in the Assigned Patent Applications will be consolidated in and owned by Assignee;

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignors, and each of them, hereby assign to Assignee, all of Assignors' entire right, title and interest, in and to the Patent Applications listed on attached Schedule 1 (the "Assigned Patent Applications") and all applications claiming priority therefrom and all continuing, divisional, and continuation- in-part applications thereof; all patents issuing from any of the foregoing and all requests for continuing examination, substitutions, reissues, extensions, renewals and reexaminations of any of the foregoing; all inventions and discoveries described in any of the foregoing (the "Inventions"); and all rights to apply in any country for any foreign counterpart, certification of invention or other governmental grant or issuance corresponding to any of the foregoing throughout the world and the right to claim for the same the priority rights under the Patent Laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable, and all forms of industrial property protection, including without limitation, patents, utility models, inventor's certificates and designs which may be granted for said Inventions in any country or countries and all extension, renewals and reissues thereof (all of the foregoing being hereinafter collectively referred to as the "Patent Rights"), the same to be held and enjoyed by Assignee for its own use and enjoyment, to the end of the term or terms for which the Patent Rights are granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by Assignors if this assignment had not been made, together with any and all past, present and future causes of action and other enforcement actions (including, without limitation, for injunctive remedies and relief) and rights to sue for and collect damages and profits, due or accrued, relating to any of the Patent Rights, including the right to sue and recover for, and the right to profits and damages, due or accrued, arising

out of or in connection with, any and all past, present or future infringements or dilutions of the Patent Rights in the sole name of Assignee. The assignment of the Assigned Patent Applications includes all documents related to the conception, diligence and reduction to practice of the Inventions, and all domestic and international patent filing documents. Notwithstanding anything to the contrary herein, if and to the extent there are any immaterial transcription, typographical or other similar errors in the information provided on Schedule 1, any such errors shall not affect the assignment of the Assigned Patent Applications.

Assignors hereby authorize the Commissioner of Patents and Trademarks of the United States Patent and Trademark Office, and the empowered officials of any other applicable offices, authorities, authorized agents, and governments to issue or transfer all said Assigned Patent Applications to Assignee, as assignee thereof, or otherwise as Assignee may direct.

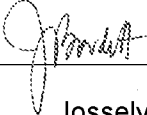

Assignors hereby agree to execute all documents and take all other actions as may be necessary to effect the assignments and transfers set forth in this Assignment.

This Agreement may be executed in any number of counterparts and each such counterpart shall be deemed to be an original, but all such counterparts shall together constitute but one and the same Agreement.

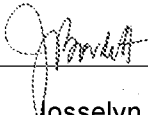

Assignors hereby authorize Assignee's patent attorney to complete this form by the addition of the application number, application filing date, and attorney docket number, if necessary.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be effective as of the day and year first above written.
