**ATTACHMENT B**  
**FORM OF**  
**PATENT ASSIGNMENT**

This PATENT ASSIGNMENT (this "**Assignment**") is made and entered into as of [●], 2018 (the "**Effective Date**"), by and between **Google LLC**, a Delaware Limited Liability Company ("**Assignor**"), and **Verily Life Sciences LLC**, a Delaware Limited Liability Company ("**Assignee**").

WHEREAS, Assignee and Assignor or its affiliate have entered into that certain Patent Assignment Agreement, dated as of [●], 2018 (the "**Patent Assignment Agreement**"), pursuant to which Assignor has agreed to assign and transfer to Assignee, and Assignee has agreed to receive, all of Assignor's right, title, and interest in and to the Assigned Patents (as defined below);

NOW, THEREFORE, for good and valuable consideration paid by Assignee to Assignor, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee agree as follows:

As used herein, the "**Assigned Patents**" means (a) the patents and patent applications listed on Schedule 1 attached hereto ("**Listed Patents**"), and (b) all reissues, reexaminations, continuations (but not continuations-in-part), and foreign counterparts filed by Assignor prior to the Effective Date that claim priority to the Listed Patents. As used above, "priority" means a formal claim of priority to the filing date of an earlier patent or patent application that is expressly made (i) in a U.S. patent under 35 U.S.C. § 119 or 35 U.S.C. § 120; or (ii) in a foreign patent under the corresponding legal requirements for claiming priority in the foreign country; in each case, where the claimed subject matter is entitled to priority to the earlier patent or patent application.

Assignor hereby assigns and transfers to Assignee all of Assignor's right, title, and interest in and to the Assigned Patents, including its rights under the Assigned Patents to sue for injunctive relief and damages for past, present, and future infringement of the Assigned Patents. Assignee acknowledges and agrees that the Assigned Patents remain subject to a certain non-exclusive license to Assignor and its Affiliates and certain other rights and licenses that, prior to the date hereof, have been granted or are required to be granted under the Assigned Patents, which will remain in effect notwithstanding assignment of such Assigned Patents. This Assignment does not assign or transfer any right, title or interest in or to any patents or patent applications other than those expressly listed in Schedule 1 to this Assignment.

This Assignment will be binding upon and will inure to the benefit of the parties and their respective successors and assigns.

This Assignment will be governed by, and construed in accordance with, the laws of the United States in respect to patent issues and in all other respects by the laws of the State of California, without reference to its choice of law principles to the contrary.

This Assignment may be executed in counterparts, each of which will be deemed an original, and all of which together constitute one and the same instrument.

[Signatures to Follow]

CONFIDENTIAL

IN WITNESS WHEREOF, Assignor and Assignee have caused this Assignment to be executed by their respective duly authorized representatives as of the date first set forth above.
